The information in this Prospectus is not investment advice and has been prepared without taking into account your investment objectives, financial situation and particular needs (including financial and taxation considerations) as an investor. You should consider the appropriateness of the CVC Notes having regard to these factors before deciding to apply for any CVC Notes. It is important that you read the entire Prospectus (including the investment risks described in Section 4) and seek professional investment advice from your financial adviser or other professional adviser before deciding whether to apply for any CVC Notes.

Important Information for New Zealand Investors

The Offer to New Zealand investors is a regulated Offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under the Corporations Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

The Offer and the content of this Prospectus are principally governed by Australian rather than New Zealand law. The Corporations Act and regulations made under the Corporations Act set out how the Offer must be made.

There are differences in how financial products are regulated under Australian law, as opposed to New Zealand law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime. The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this Offer. If you need to make a complaint about this Offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as that for New Zealand financial products. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The Offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

Guidance for Retail Investors

Read this Prospectus in Full

If you are considering applying for any CVC Notes under the Offer, this Prospectus is important and should be read in its entirety. You should have particular regard to the:

- 'Investment overview' in Section 1;

Letter From the Chairman

Dear Investor,

I am pleased to invite you to participate in CVC Limited's ('CVC') offer of redeemable, unsecured, convertible notes ('CVC Notes'). CVC Notes aim to provide investors with an investment offering regular interest payments with the possibility of converting into CVC Ordinary Shares, depending on the performance of CVC's share price over time, or alternatively repayment of the Face Value at maturity.

CVC is an ASX listed diversified investment company that invests capital through the CVC Group in a combination of listed and unlisted companies, property and funds management investments. These investments include but are not limited to:

- ASX listed companies and trusts;
- Private equity unlisted emerging and high growth companies;
- Direct and in-direct property exposure, including loans, preference equity, joint ventures and direct property; and
- Funds Management (Listed equities managers, property investment managers, debt managers and litigation funding managers).

Key terms of CVC Notes include:

- Face Value – each CVC Note will have a Face Value of \$100;
- Interest payment – Quarterly paying, floating rate with an indicative margin range of 3.75% - 4.25% over the 90-day BBSW (to be determined under the Bookbuild);
- Maturity – 22 June 2023 (if not already redeemed or converted);
- Convertibility – convertible into Ordinary Shares upon notice at a fixed Conversion Price (subject to adjustment for certain dilutionary and other capital transactions). The Conversion Price is initially set at \$3.40, which represents a 30% premium to the average of the daily volume weighted average prices of CVC Ordinary Shares traded during the 10 Business Days prior to the date of lodgement of this Prospectus with ASIC;
- Size – The Board intends to raise \$50 million of notes with the ability to raise more or less;
- Ranking – unsecured and ranking for payment after any secured creditors are paid. CVC Notes rank ahead of CVC Ordinary Shares; and
- Liquidity – CVC Notes will be listed on ASX.

As at 31 December 2017, CVC Group had net assets of approximately \$208.3 million.

This Prospectus contains further details of the Offer, the terms of the CVC Notes and a description of the risks associated with an investment in CVC Notes and CVC. The Company does not guarantee the future performance of the CVC Notes or the CVC Ordinary Shares. I encourage you to read the entire Prospectus carefully and consider the risks which are set out in Section 4 before deciding whether to participate in the Offer. If you are unsure whether CVC Notes are a suitable investment for you, you should consult your stockbroker, accountant or other professional adviser.

On behalf of the CVC Board, I invite you to consider participating in this investment opportunity.

Yours faithfully

John D Read

1.2 Key Terms of CVC Notes

Regulatory Event This occurs where in the opinion of the Directors (having obtained an opinion from a reputable legal or accounting adviser) there is some change in the law, interpretation of the law or ASX Listing Rules, tax, or accounting regulations (after the Issue Date) which is applicable to CVC Notes and which creates more than an insubstantial risk that CVC will be exposed to additional costs or the imposition of additional requirements in keeping the CVC Notes on issue, the effect of which is unacceptable in the opinion of the Directors (determined at their sole discretion).

A Regulatory Event will also occur where there is more than an insubstantial risk that CVC would be exposed to more than a de minimis increase in its costs as a result of the occurrence (on or after the Issue Date) of some change in the laws or treaties of Australia (including changes in administrative law).

Events of Default An Event of Default occurs in relation to the CVC Notes if: Section 8

- CVC fails to pay any amount payable by it under the Terms within 10 business days after the date on which it is due and, where the sole reason for the default is a technical or administrative difficulty within the banking system being used to effect payment, such default is not remedied within five Business Days;
- CVC fails to comply with any of its other obligations under the Terms or the Trust Deed and such failure remains unremedied for a period of 20 Business Days after CVC has received written notice from the Trustee in respect of the failure;
- An Insolvency Event (as defined in the Terms) occurs in respect of CVC;
- CVC ceases or suspends the conduct of all of its business;
- At any time, it is unlawful for CVC to perform any of its payment obligations under the CVC Notes;
- CVC fails to issue Ordinary Shares on Conversion in accordance with these Terms within 10 business days after the date on which such issue is to be made;
- Any debt of CVC greater than \$1,000,000.00 (or its equivalent in any other currencies) becomes due and payable before its stated maturity due to the occurrence of a default event under the terms of that debt; or
- All or any rights or obligations of CVC, Holders or the Trustee under the Trust Deed or the Terms are terminated or are or become void, illegal, invalid, unenforceable or of limited force and effect.

If any Event of Default occurs and is continuing in relation to CVC Notes, the Trustee may declare by notice to CVC (with a copy to the Holders and the Registrar) that all CVC Notes are to be Redeemed at their Face Value (together with any accrued Interest) immediately (but not earlier than five Business Days after the date the Trustee gives notice under this clause) or on such other date specified in that notice.

Delisting Events This occurs where:

- Ordinary Shares are no longer quoted on ASX;
- the CVC Notes are no longer quoted on ASX; or
- Ordinary Shares or CVC Notes are suspended from trading on ASX for a period of more than 20 consecutive business days.

Default Interest If an amount is not paid on or before the due date, interest accrues on the unpaid amount at the aggregate of the Interest Rate prevailing at the time the payment was due and 1.5% per annum from, and including, the due date to, but excluding, the date on which payment is made to the Holder of the full unpaid amount.

Further Information

1.3 Key Risks Associated with CVC Notes

The following is a summary of risks associated with an investment in CVC Notes, many of which are outside the control of CVC. Please refer to Section 4 for further risks relating to an investment in CVC generally and to the market for notes generally. Please note the risks highlighted are not intended to be exhaustive.

Before applying for CVC Notes, you should consider whether CVC Notes are a suitable investment for you. A summary of some of the key risks associated with an investment in CVC are described in Section 4.

CVC Notes are subordinated obligations	<p>In the event of a Winding Up, if the CVC Notes are still on issue and have not been Redeemed or Converted, they will rank for payment:</p> <ul style="list-style-type: none">• ahead of Ordinary Shares;• equally with all present and future unsubordinated and unsecured debt obligations of CVC (subject to laws and principles of equity affecting creditors' rights or obligations preferred by mandatory provisions of applicable law), and• behind Senior Creditors. <p>There may be a shortfall of funds to pay all amounts ranking senior to and equally with CVC Notes if an event of insolvency of CVC occurs. This would result in Holders not receiving any payment if claims ranking senior to CVC Notes were not satisfied in full or otherwise not receiving a full return of capital or any interest due and unpaid at that time.</p>	Section 4.1.1
Interest payments are not guaranteed	<p>CVC expects to make interest payments using available cash balances and cash flow from the CVC Group's investments. CVC's ability to generate cash flows from the CVC Group's operations will depend substantially on the performance of its investments in ASX listed companies, income generated from its loan portfolio, realisation of property assets and performance of unlisted investments. The interest payments on the CVC Notes are not guaranteed by CVC, the Trustee or any other entity.</p>	Section 4.1.2
Changes in interest rate	<p>Interest on the CVC Notes is calculated by reference to the Bank Bill Rate, which is influenced by a number of factors that may fluctuate over time. The Interest Rate will fluctuate (both increasing and decreasing) over time as a result of movements in the Bank Bill Rate. As the Interest Rate fluctuates, there is a risk that it may become less attractive compared to the rate of return available on other securities.</p>	Section 4.1.3
Future issues of debt or other securities by CVC	<p>CVC may issue further securities with the same or different terms as the CVC Notes. CVC may issue other securities, including further CVC Notes that rank for interest, redemption or payment in a winding-up of CVC ahead of, equally with, or behind the CVC Notes, without the approval of Holders.</p> <p>Any issue of other securities may affect a Holders' ability to recover on a Winding Up, if the CVC Notes are on issue at the time.</p> <p>No prediction can be made as to the effect, if any, such future issues of debt or other securities by an entity in the CVC Group may have on the market price or liquidity of the CVC Notes, or the Ordinary Shares.</p>	Section 4.1.4
Redemption risk	<p>CVC expects to be able to redeem the CVC Notes using the proceeds from future debt or equity raisings, cash flows from operations (if available) or proceeds from the sale of investments. There is a risk that CVC would be unable to procure or raise sufficient cash resources from future debt or equity raisings or sale of investments and would, in that case, have insufficient cashflows to redeem the CVC Notes at the Maturity Date.</p> <p>None of CVC, the Trustee or any other entity have guaranteed the redemption of the CVC Notes.</p>	Section 4.1.5

1.3 Key Risks Associated with CVC Notes		Further Information
Early redemption risk	<p>CVC Notes may be redeemed early by CVC in certain circumstances. Where redeemed, CVC Notes will be redeemed at their Face Value of \$100 per CVC Note (plus any accrued interest, and applicable Early Redemption Premium (if any)). There is a risk that the relevant redemption amount may be less than the then current market value of the CVC Notes or the timing of such redemption may not accord with a Holder's individual financial circumstances or tax position. Additionally, in the event of an early redemption of CVC Notes, Holder's may not receive the returns they expected to achieve on CVC Notes (if held until maturity) by investing the proceeds in alternative investment opportunities available at that time.</p>	Section 4.1.6
Conversion to Ordinary Shares	<p>The Ordinary Shares held by Holders following Conversion of their CVC Notes will have the same rights as other Ordinary Shares, which are different from the rights attached to CVC Notes.</p> <p>The market price of the Ordinary Shares may be volatile. There may be no liquid market for Ordinary Shares at the time of conversion or the market for Ordinary Shares may be less liquid than that for comparable securities issued by other entities at the time of conversion. Holders may suffer loss as a result.</p>	Section 4.1.7
Dividends may not be paid on Ordinary Shares	<p>Payment of any dividends on Ordinary Shares issued on Conversion of the CVC Notes is at the discretion of Directors. Holders whose CVC Notes are converted after the record date for a dividend will have no entitlement to that dividend. Directors may only declare or determine a dividend if there are funds legally available to pay dividends. CVC Notes will not be entitled to participate in any dividends on the Ordinary Shares.</p> <p>The amount of future dividends actually paid will be determined by the Board of CVC having regard to, amongst other things, CVC Group's operating results, financial position and available franking credits. A change in dividend policy or dividend levels may impact the market value of CVC Notes.</p>	Section 4.1.8
Dilution	<p>CVC may undertake additional offerings of securities in the future. The increase in the number of issued Ordinary Shares or securities convertible into Ordinary Shares and the possibility of sales of such securities may depress the price of Ordinary Shares already on issue and of the CVC Notes. In addition, as a result of the issue of Ordinary Shares, the voting power and proportionate economic interest of CVC's existing shareholders (and, indirectly, of holders of CVC Notes) will be diluted. The Terms provide for an adjustment to the Conversion Price in relation to only a limited class of future offerings of securities or in situations where it is lawful to do so (refer Terms of Issue described in Section 8).</p>	Section 4.1.9
No voting rights	<p>There is a risk that Holders may be affected by corporate decisions made by CVC. Holders have no voting or other rights in relation to the Ordinary Shares until Ordinary Shares are issued to them. In addition, CVC Notes do not confer on Holders any right to subscribe for new securities in CVC or to participate in any new or bonus issue of securities. The rights attaching to Ordinary Shares, if Ordinary Shares are issued, will be the rights attaching to Ordinary Shares at that time. Holders have no right to vote on or otherwise to approve any changes to the Constitution in relation to the Ordinary Shares that may be issued to them upon Conversion. Therefore, Holders will not be able to influence decisions that may have adverse consequences for them.</p>	Section 4.1.10

Section 1: Overview of the Offer and CVC Notes continued

1.3 Key Risks Associated with CVC Notes		Further Information
Modification, waivers and substitution	CVC may in certain circumstances amend the Terms without the consent of Holders (refer to Clause 19.1 of the Terms). CVC may also amend the Terms if the amendment has been approved by a Holder's Resolution or, if the Trustee reasonably considers that the amendment will materially and adversely affect the rights of all Holders, by a Special Resolution of Holders. There is a risk that an amendment or a substitution of the Terms will be made, and with which Holders may not agree.	Section 4.1.11
Enforcement risk	The Terms provide that rights under the CVC Notes and the Note Trust Deed may generally only be enforced by the Trustee and not by the Holders directly. Holders must therefore notify their claims to the Trustee and rely on enforcement by the Trustee, except in certain circumstances where the Trustee has failed to take action after being directed by Holders to do so. Holders may, by ordinary or special resolution, waive breaches or amend the Note Trust Deed. A large Holder may influence the outcome of any such vote.	Section 4.1.12
CVC Notes not rated	CVC Notes are unrated. The market price and liquidity of an unrated security may be adversely affected compared to securities that are rated.	
Taxation treatment	A general description of the Australian taxation consequences of investing in the CVC Notes is set out in Section 5. The information in Section 5 is provided in general terms and is not intended to provide specific advice in relation to the circumstances of any potential investor or Holder. Accordingly, you should seek independent advice in relation to your individual tax position before you choose to apply for or invest in CVC Notes.	Section 4.1.13
FATCA withholding and reporting	If CVC or any other person is required to withhold amounts under or in connection with FATCA from any payments made with respect to CVC Notes or with respect to the issuance of any Ordinary Shares upon any Conversion, Holders and beneficial owners of CVC Notes, and holders of Ordinary Shares issued upon any Conversion will not be entitled to receive any gross up or additional amounts to compensate them for such withholdings. FATCA is complex and its application to the CVC Notes remains uncertain. Prospective investors are advised to consult their own tax advisers about the application of FATCA to the CVC Notes. 2.2.1 Listed Equity

CVC Group's listed equities portfolio includes a diverse range of holdings, from short term to long held cornerstone positions. CVC looks at a broad range of listed equity classes, with particular focus on micro caps and smaller capitalised companies.

CVC Group adds significant value through its active management of large strategic holdings of listed equity investments that it identifies as undervalued, counter-cyclical or underperforming. As well as adopting active management strategies to increase the value of the investment, CVC also utilises a range of value creation tools including the use of options, capital raisings and underwritings where available.

The Listed Equity portfolio provides a combination of recurrent income streams through dividends and capital growth on realisation of holdings. CVC targets returns of >15% per annum from the Listed Equity portfolio.

The value of listed investments was approximately \$81 million as at 31 December 2017.

CVC has been investing in private equity since its inception as a listed company, utilising experience gained over 30 years of active private equity management. CVC typically invests \$1 million to \$15 million per investment.

The Private Equity portfolio currently comprises a number of investments diversified by size and stage of development including:

2.2.3 Property

The Property segment holds direct and in-direct exposure to property assets, including loans, preference equity and joint ventures. The portfolio exposure includes residential, commercial, retail and industrial positions. The focus is to provide loans or make direct property investments to take full advantage of changing market cycles as they present opportunities.

CVC Group's property portfolio provides a combination of recurrent income, such as interest and associated fee income from loans and rental income from direct property investments as well as capital growth in assets. CVC has specific expertise and exposure to assets that are appropriate for repositioning through planning or leasing strategies.

The value of property investments reported in the accounts was approximately \$48 million as at 31 December 2017. Based on recent valuations of directly held properties that are in the process of being developed or rezoned, the unrecognised value uplift as at 31 December 2017 was approximately \$70.3 million.

The property portfolio of CVC, particularly strategic land holdings that are in the process of planning and development outcomes, is carried at a value that does not reflect any increase in market value that would be realised if the properties were sold. It is the current expectation of management and the Board that this unrecognised value will be realised in due course, and will be accounted for as profits at that time.

2.3 Approach to Investing

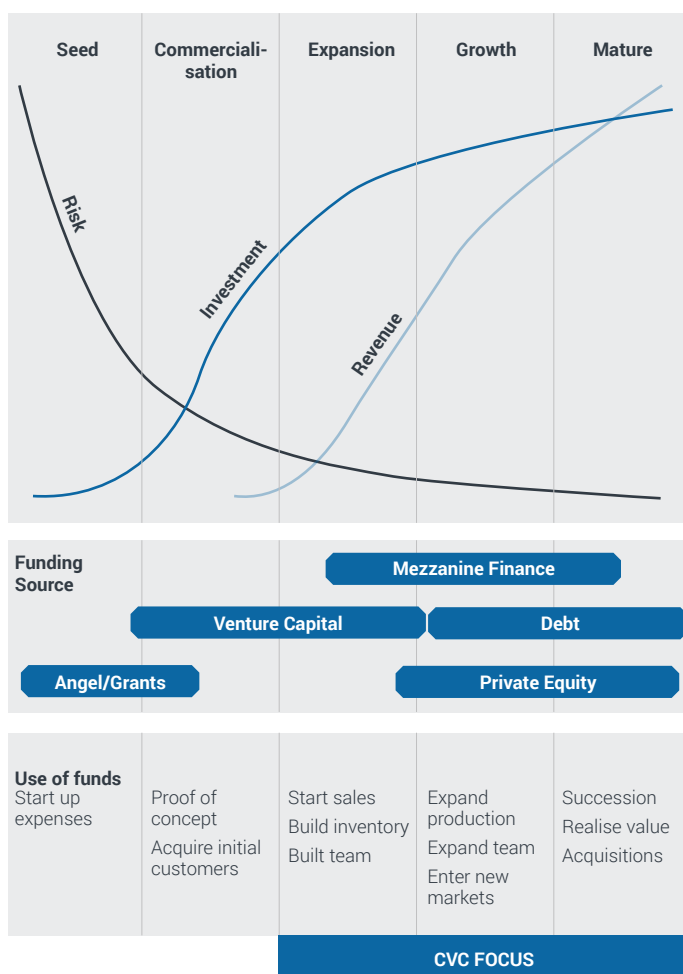

2.3.1 Listed Equity

CVC adopts a value based methodology in its investment selection of listed equities. This includes an analysis of company fundamentals such as price to earnings multiples, earnings growth, relativity of price to net tangible assets, multiples of free cash flow, dividend history, competitive market positioning and arbitrage opportunities. Active management of key strategic investments via assistance with both acquisitive and organic growth and operational and financial restructuring is important for the success of listed equity investments.

2.3.2 Private Equity

CVC applies an established methodology to identify, target, negotiate, conduct due diligence and structure potential private equity investment opportunities. CVC regularly adopts a patient approach to investment selection, subsequent development of the business and the realisation phase of the investment lifecycle. CVC also looks for an ability to add value to the investment to maximise potential investment returns or an ability to assist with synergistic business acquisitions in small emerging companies. Investment exits are often made by way of a trade sale, initial public offering or on-market sell down.

Figure 9: CVC Private Equity Focus

2.3.3 Property

CVC invests in property through flexible investment solutions with regard to different stages of the economic cycle. CVC will invest in either debt or equity to align with and take full advantage of CVC's view on changing market cycles. Debt exposure is increased as the property market approaches what CVC believes to be its peak, to help provide sufficient headroom to better ensure capital protection in a contracting market. Equity exposure is increased in property assets to capture increasing values where CVC believes the property markets are improving.

Figure 10: Property Investment Cycle

2.3.4 Funds Management

CVC makes investments through its funds management business utilising the same investment approach outlined for listed equity, private equity and property (as described in Section 2.3.1, 2.3.2 and 2.3.3), depending on the asset class in which the particular investment is made.

Section 3: Effect of the Offer continued

Notes on the pro forma consolidated statement of financial position.

(1) Cash Pro forma reconciliation

The table below details the reconciliation of the pro forma cash balance of CVC as at 31 December 2017, reflecting the impact of the pro forma adjustments on the actual cash at bank.

Pro Forma Cash Reconciliation In thousands of AUD	Pro Forma 31 Dec 2017 \$'000
Cash balance as at 31 December 2017	56,370
Gross proceeds from the Offer	50,000
Gross expenses of the Offer	(1,960)
Pro forma cash balance	104,410

(2) Borrowing Compound financial instruments – Convertible Notes

The unsecured convertible notes to be issued by CVC in accordance with the Offer, are able to be converted to share capital in CVC at the option of the Holder, and the number of Shares to be issued in CVC will not vary with changes in the fair value of the instruments. In accordance with AASB 132: Financial Instruments: Presentation; the CVC Notes will be recognised as a compound financial instrument.

The liability component of a compound financial instrument is initially recognised at the fair value of a comparable liability that does not have an equity conversion option. The equity component is initially recognised as the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component.

Transaction costs which are directly attributable to the CVC Note issue are allocated to the liability and equity component of the compound financial instrument on a proportional basis. The fair value of the liability component of the CVC Note issue has been estimated to be \$48.27 million (\$50 million Offer) with the balance reflected as a component of equity. These amounts have been recorded within the CVC pro forma consolidated Statement of financial position as at 31 December 2017 net of transaction costs which are directly attributable to the CVC Note issue and the impacts of deferred tax accounting.

After initial recognition, the liability compound financial instrument will be measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured after initial recognition.

Interest, dividends, losses and gains relating to the financial liability are recognised in profit or loss.

3.2 Summary Financial Information and Metrics

(a) Financial ratios

To assist potential investors to understand the financial position and performance of CVC, the following disclosure regarding certain financial ratios has been included.

The ratios included below have been calculated based on:

- the auditor-reviewed consolidated statement of financial position as at 31 December 2017
- the auditor-reviewed consolidated profit and loss statement for the six months to 31 December 2017
- the unaudited pro forma consolidated statement of financial position as at 31 December 2017 incorporating the impact of the Offer and expenditure of funds associated with the Offer.

Ratios have been provided for the purposes of this Prospectus only, based on the assumptions outlined, and will not be specified in the financial statements reported by CVC.

	Actual 31 Dec 17 (reviewed)	Unaudited pro forma \$50 million Offer
Gearing Ratio ¹	16%	29%
Working Capital Ratio ¹	4.79x	6.66x
Interest Cover Ratio ²	37.07x	11.88x

Notes:

- The above ratios exclude any potential impact to CVC as a result of a liability that may be recognised in connection with guarantees provided by CVC as noted at Section 3.3 below.
- The pro forma interest cover ratio includes a notional interest expense on the face value of the CVC Notes calculated at an indicative interest rate of 6%, per annum, on an assumption that the CVC Notes were on issue for the full six month period.

(b) Gearing Ratio

The Gearing Ratio indicates the extent to which the assets of CVC are funded by debt. Generally, a higher ratio indicates greater use of borrowings.

CVC's Gearing Ratio has been calculated using the following formula and information derived from its 31 December 2017 financial statements and unaudited pro forma financial statements:

$$\text{Gearing Ratio} = \frac{\text{Total Liabilities} - \text{Limited Recourse Debt}}{(\text{Total Liabilities} + \text{Total Equity}) - \text{Limited Recourse Debt}}$$

(c) Interest Cover Ratio

Interest cover gives an indication of an issuer's ability to meet its interest payments from earnings. It therefore provides important information about CVC's financial sustainability and the risks associated with CVC's level of borrowings. A low interest cover ratio may indicate that CVC could face difficulties in servicing its debt if earnings decrease or interest rates increase.

CVC's Interest Cover Ratio has been calculated using the following formula and information derived from its 31 December 2017 financial statements and unaudited pro forma financial statements:

$$\text{Interest Cover Ratio} = \frac{\text{EBIT}}{\text{Interest expense}}$$

EBIT means earnings before interest expense and taxes for the half year period ended 31 December 2017, but includes interest income generated from investments.

Interest expense means the interest expense net of interest revenue, taking account of any related hedging arrangements recognised in the profit and loss statements for the half year period ended 31 December 2017.

The pro forma calculation does not assume any additional return to CVC as a result of investing the proceeds of the Offer. The pro forma calculation includes a notional interest expense on the face value of the CVC Notes calculated at an indicative interest rate of 6% per annum, on an assumption that the CVC Notes were on issue for the full six month period. This information is provided for illustrative purposes only and is not represented as being indicative of the future performance of CVC.

(d) Working Capital Ratio

Working Capital Ratio gives an indication of whether an issuer has sufficient short term assets to meet its short term liabilities. Generally, a higher ratio indicates a greater ability to meet liabilities over the short term, including unexpected liabilities.

CVC's working capital ratio has been calculated, using the following formula and information derived from its 31 December 2017 financial statements and unaudited pro forma financial statements.

$$\text{Working Capital Ratio} = \frac{\text{Current assets}}{\text{Current liabilities}}$$

(e) Assets, liabilities and equity

CVC had total assets of \$247.8 million, total liabilities of \$39.4 million and total equity of \$208.3 million as at 31 December 2017. The market value of the Company's equity at 31 December 2017 (market capitalisation) was \$323.9 million. The Company's market capitalisation as at 23 May 2018 was approximately \$315.6 million.

(f) Loans and debt

As at the date of this Prospectus, CVC is not in default on current loan covenants or debt obligations.

3.3 CVC Group's Existing Debt Facilities and Debt Maturity

As of the date of this Prospectus, CVC Group has \$23.4 million of outstanding interest bearing loans and borrowings as follows:

- Secured loan over Lot 11 Richards Road, Riverstone New South Wales of \$13.7 million to an unrelated entity;
- Unsecured loan from Winten (No. 20) Pty Limited of a net \$9.7 million.

A further \$20 million secured loan facility is available to CVC Group but is currently undrawn.

In addition to the amounts disclosed above, CVC's 2017 Annual Report discloses that the CVC Group had provided \$8.43 million in guarantees as security for a number of transactions. Since that date CVC has provided an additional \$6.32 million in guarantees, as such at the date of this Prospectus CVC has provided financial guarantees in the order of \$14.75 million. CVC is also party to a number of option agreements for the potential acquisition of assets. If these options were exercised CVC would have an obligation to provide a financial guarantee in relation to the completion of the asset acquisitions. The value of these guarantees would be supported by a corresponding interest in the value of the assets to be acquired under the option agreements.

No actual liability has been recorded in the statement of financial position in relation to these guarantees as CVC has not been notified nor is it aware of any obligation to fulfil an obligation under the guarantees.

3.4 Effect of Offer if More or Less Than \$50 Million is Raised

CVC may accept more or less than \$50 million of applications which may increase or decrease the aggregate outstanding face value of CVC Notes. Such an increase or decrease will impact on the ratios detailed in Section 3.2 and the pro forma consolidated statement of financial position detailed in Section 3.1(f).

Section 4: Risk Factors

Before applying for any CVC Notes, you should consider whether the CVC Notes are a suitable investment for you. There are risks associated with CVC's business and risks associated with an investment in the CVC Notes and CVC, many of which are outside the control of CVC. These risks include those in this Section 4 and other matters referred to in this Prospectus. You should carefully consider the risks described and the other information in this Prospectus before investing in CVC Notes. The risks and uncertainties described below are not the only ones CVC faces.

Additional risks and uncertainties that CVC is unaware of, or that CVC currently deems to be immaterial, may also become important factors that affect the CVC Notes or CVC.

4.1 Risks Associated With CVC Notes

4.1.1 CVC Notes Are Subordinated Obligations

In the event of a Winding Up, if the CVC Notes are still on issue and have not been Redeemed or Converted, they will rank for payment:

- ahead of Ordinary Shares;
- equally with all present and future unsubordinated and unsecured debt obligations of CVC (subject to laws and principles of equity affecting creditors' rights or obligations preferred by mandatory provisions of applicable law), and
- behind Senior Creditors.

There may be a shortfall of funds to pay all amounts ranking senior to and equally with CVC Notes if an event of insolvency of CVC occurs. This would result in Holders not receiving any payment if claims ranking senior to CVC Notes were not satisfied in full or otherwise not receiving a full return of capital or any interest due and unpaid at that time.

4.1.2 Interest Payments are Not Guaranteed

CVC expects to make interest payments using available cash balances and cash flow from the CVC Group's investments. CVC's ability to generate cash flows from CVC Group's operations will depend substantially on the performance of its investments in ASX listed companies, income generated from its loan portfolio, realisation of property assets and performance of unlisted investments. The interest payments on the CVC Notes are not guaranteed by CVC, the Trustee or any other entity.

4.1.3 Changes in Interest Rate

Interest on the CVC Notes is calculated by reference to the Bank Bill Rate, which is influenced by a number of factors that may fluctuate over time. The Interest Rate will fluctuate (both increasing and decreasing) over time as a result of movements in the Bank Bill Rate. As the Interest Rate fluctuates, there is a risk that it may become less attractive compared to the rate of return available on other securities.

4.1.4 Future Issues of Debt or Other Securities by CVC

CVC may issue further securities with the same or different terms as the CVC Notes. CVC may issue other securities, including further CVC Notes that rank for interest, redemption or payment in a winding-up of CVC ahead of, equally with, or behind the CVC Notes, without the approval of Holders.

Any issue of other securities may affect a Holders' ability to recover on a Winding Up, if the CVC Notes are on issue at the time.

No prediction can be made as to the effect, if any, such future issues of debt or other securities by an entity in the CVC Group may have on the market price or liquidity of the CVC Notes, or the Ordinary Shares.

4.1.5 Redemption Risk

CVC expects to be able to redeem the CVC Notes using the proceeds from future debt or equity raisings, cash flows from operations (if available) or proceeds from the sale of investments. There is a risk that CVC would be unable to procure or raise sufficient cash resources from future debt or equity raisings or sale of investments and would, in that case, have insufficient cashflows to redeem the CVC Notes at the Maturity Date.

None of CVC, the Trustee or any other entity have guaranteed the redemption of the CVC Notes.

4.1.6 Early Redemption Risk

CVC Notes may be redeemed early by CVC in certain circumstances. Where redeemed, CVC Notes will be redeemed at their Face Value of \$100 per CVC Note (plus any accrued interest and applicable Early Redemption Premium (if any)). There is a risk that the relevant redemption amount may be less than the then current market value of the CVC Notes or the timing of such redemption may not accord with a Holder's individual financial circumstances or tax position. Additionally, in the event of an early redemption of CVC Notes, Holder's may not receive the returns they expected to achieve on CVC Notes (if held until maturity) by investing the proceeds in alternative investment opportunities available at that time.

4.1.7 Conversion to Ordinary Shares

The Ordinary Shares held by Holders following conversion of their CVC Notes will have the same rights as other Ordinary Shares, which are different from the rights attached to CVC Notes.

The market price of the Ordinary Shares may be volatile. There may be no liquid market for Ordinary Shares at the time of conversion or the market for Ordinary Shares may be less liquid than that for comparable securities issued by other entities at the time of conversion. Holders may suffer loss as a result.

4.1.8 Dividends May Not be Paid on Ordinary Shares

Payment of any dividends on Ordinary Shares issued on conversion of the CVC Notes is at the discretion of Directors. Holders whose CVC Notes are converted after the record date for a dividend will have no entitlement to that dividend.

Directors may only declare or determine a dividend if there are funds legally available to pay dividends. CVC Notes will not be entitled to participate in any dividends on the Ordinary Shares. The amount of future dividends actually paid will be determined by the Board of CVC having regard, amongst other things, to CVC Group's operating results, financial position and available franking credits. A change in dividend policy or dividend levels may impact the market value of CVC Notes.

4.1.9 Dilution

CVC may undertake additional offerings of securities in the future. The increase in the number of issued Ordinary Shares or securities convertible into Ordinary Shares and the possibility of sales of such securities may depress the price of Ordinary Shares already on issue and of the CVC Notes. In addition, as a result of the issue of Ordinary Shares, the voting power and proportionate economic interest of CVC's existing shareholders (and, indirectly, of holders of CVC Notes) will be diluted. The Terms provide for an adjustment to the Conversion Price in relation to only a limited class of future offerings of securities or in situations where it is lawful to do so (refer Terms of Issue described in Section 8).

4.1.10 No Voting Rights

There is a risk that Holders may be affected by corporate decisions made by CVC. Holders have no voting or other rights in relation to the Ordinary Shares until Ordinary Shares are issued to them. In addition, CVC Notes do not confer on Holders any right to subscribe for new securities in CVC or to participate in any bonus issue of securities. The rights attaching to Ordinary Shares, if Ordinary Shares are issued, will be the rights attaching to Ordinary Shares at that time. Holders have no right to vote on or otherwise to approve any changes to the Constitution in relation to the Ordinary Shares that may be issued to them upon Conversion. Therefore, Holders will not be able to influence decisions that may have adverse consequences for them.

4.1.11 Modification, Waivers and Substitution

CVC may in certain circumstances amend the Terms without the consent of Holders (refer to Clause 19.1 of the Terms). CVC may also amend the Terms if the amendment has been approved by a Special Resolution of Holders. There is a risk that an amendment or a substitution of the Terms will be made, and with which Holders may not agree.

4.1.12 Enforcement Risk

The Terms provide that rights under the CVC Notes and the Note Trust Deed may generally only be enforced by the Trustee and not by the Holders directly. Holders must therefore notify their claims to the Trustee and rely on enforcement by the Trustee, except in certain circumstances where the Trustee has failed to take action after being directed by Holders to do so. Holders may, by ordinary or special resolution, waive breaches or amend the Note Trust Deed. A large Holder may influence the outcome of any such vote.

4.1.13 CVC Notes Not Rated

CVC Notes are unrated. The market price and liquidity of an unrated security may be adversely affected compared to securities that are rated.

4.1.14 Taxation Treatment

A general description of the Australian taxation consequences of investing in the CVC Notes is set out in Section 5. The information in Section 5 is provided in general terms and is not intended to provide specific advice in relation to the circumstances of any potential investor or Holder. Accordingly, you should seek independent advice in relation to your individual tax position before you choose to apply for or invest in CVC Notes.

4.1.15 Foreign Account Tax Compliance Act ('FATCA') Withholding and Reporting

In order to comply with FATCA, CVC (or, if CVC Notes are held through another financial institution, such other financial institution) may be required (pursuant to an agreement with the United States or under applicable law including pursuant to the terms of an applicable intergovernmental agreement entered into between the United States and any other jurisdiction) (i) to request certain information from Holders or beneficial owners of CVC Notes, which information may be provided to the US Internal Revenue Service ('IRS'), and (ii) to withhold tax on some portion of payments made with respect to CVC Notes if such information is not provided or if payments are made to certain foreign financial institutions that have not entered into a similar agreement with the United States (and are not otherwise required to comply with the FATCA regime under applicable law including pursuant to the terms of an applicable intergovernmental agreement entered into between the United States and any other jurisdiction).

If CVC or any other person is required to withhold amounts under or in connection with FATCA from any payments made with respect to CVC Notes or with respect to the issuance of any Ordinary Shares upon any Conversion, Holders and beneficial owners of CVC Notes, and holders of Ordinary Shares issued upon any Conversion will not be entitled to receive any gross up or additional amounts to compensate them for such withholdings. FATCA is complex and its application to the CVC Notes remains uncertain. Prospective investors are advised to consult their own tax advisers about the application of FATCA to the CVC Notes.

This information is based on guidance issued by the IRS or other relevant tax authority as at the date of this Prospectus. Future guidance may affect the application of FATCA to CVC, Holders or beneficial owners of CVC Notes or Ordinary Shares.

Section 4: Risk Factors continued

4.2 Risks Related to the Market For Notes Generally

4.2.1 Market Price of the CVC Notes May Fluctuate

CVC has applied for quotation of CVC Notes on ASX, but CVC is unable to forecast the market price and liquidity of the market for CVC Notes. The market price for the CVC Notes may fluctuate due to various factors, including:

- operating results of CVC and the CVC Group that vary from expectations of securities analysts and investors;
- changes in expectations as to CVC's future financial performance, including financial estimates by securities analysts and investors;
- announcement of acquisitions, strategic partnerships, joint ventures or capital commitments by CVC or its competitors;
- changes in the market price of Ordinary Shares;
- other major Australian and international events such as hostilities and tensions, and acts of terrorism; and
- other factors beyond the control of CVC and its Directors.

It is possible that CVC Notes will trade at a market price above or below the Face Value as a result of these and other factors. As a result, Holders who wish to sell their CVC Notes may be unable to do so at an acceptable price (if at all). Additionally, this may result in greater volatility in the market price of the CVC Notes than would be expected for non-convertible debt securities. Where markets are volatile, there is the potential for fluctuations in the price of securities, sometimes markedly and over a short period. Investing in volatile conditions implies a greater level of volatility risk for investors than an investment in a more stable market.

4.2.2 Liquidity of the CVC Notes May Be Low

CVC has applied for CVC Notes to be listed on ASX. However, CVC Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Insufficient liquidity may have a severely adverse effect on the market price of CVC Notes which may trade at a market price below their Face Value. Holders may not be able to sell their CVC Notes easily or at an acceptable price. The extent of liquidity may also affect the volatility of the market price of CVC Notes.

4.2.3 Inflation Risk

An increase in the inflation rate may erode in real terms the value of the capital invested in CVC Notes. It may also negatively impact the profitability of the companies in which CVC Group invests, the market value of the shares of those companies, property prices and the real returns generated from debt investments.

4.3 Risks Associated With CVC

Key risks relating to CVC are set out below. It is not, however, possible to describe all the risks to which CVC may become subject and which may impact adversely on CVC's prospects and performance.

4.3.1 General Investment Risk

CVC's primary operations involve the investment in listed equities, private equity and property. CVC's strategy is to identify investments which are undervalued by the marketplace or which CVC can add value via its management strategies to generate a return. There is a risk that CVC may not be able to generate returns on its investments at a higher value than the original acquisition cost which could materially reduce CVC's revenue and profitability.

4.3.2 Equity Investment Risks

CVC's listed equities investment strategy is to invest predominantly in ASX-listed securities. There are risks associated with investing in listed securities including general market risks and risks specific to the investment company. Considering the investments in which CVC undertakes, there is a greater exposure to liquidity and market risk. The performance of ASX-listed securities are also impacted by Australian and international economic conditions, inflation, interest rates, equity market conditions, environmental concerns, regulatory/compliance issues, geopolitical instability and/or investor sentiment. These risks could materially reduce CVC's revenue and profitability.

CVC generally undertakes investments in smaller market capitalisation businesses. These businesses may be in earlier stages of development, may be dependent on a small number of products or services, may lack substantial capital reserves and/or do not have proven track records. These companies may be exposed to greater risks compared to larger, more established companies as they may be dependent on a small number of products or services, may lack substantial capital reserves and/or do not have proven track records, and may lack an active market in their securities.

4.3.3 Private Equity Investment Risk

CVC's private equity business invests in smaller companies which may be in earlier stages of development, may be dependent on a small number of products or services, may lack substantial capital reserves and/or do not have proven track records. The capital provided to these businesses include a combination of equity and debt funding. The recoverability of the investments is influenced by the success of the business operations. These businesses may be exposed to greater risks compared to larger, more established companies as they may be dependent on a small number of products or services, may lack substantial capital reserves and/or do not have proven track records. Additionally, small companies may be more adversely affected by poor economic or market conditions, inflation, interest rates, environmental concerns, regulatory/compliance issues or as a result of specific business risks such as poor corporate governance which may increase volatility and liquidity risk.

4.3.4 Property Investment Risk

The performance of CVC's property investments is influenced by the realisable value of CVC Group's property and property-related assets and the security supporting loans. The realisable value is affected by general and specific market conditions that affect the timing and amount of the income realised, regulatory impacts including development consents, development costs increasing, cost and availability of finance, contract terminations and level of foreign investment.

4.3.5 Funds Management Investment Risk

The performance of CVC's funds management investments is dependent on the performance of the funds in which CVC is invested. These funds are managed by third party fund managers and therefore the performance of these funds is often outside of the control of CVC. There is a risk that these funds do not achieve stated target returns or performance which could directly impact CVC's revenue and profitability.

4.3.6 Availability of Suitable Investment Opportunities

The success and profitability of CVC will largely depend upon the availability of investment opportunities in the various asset classes of listed, private equity and property as well as the ability to source and identify suitable opportunities. The availability of these opportunities is impacted by market conditions and other factors outside CVC's control as well as retaining and sourcing skilled personnel. Any failure to identify and/or source appropriate transactions and opportunities will adversely affect the performance of CVC.

4.3.7 Failure of Internal Governance, Compliance and Risk Management Systems

The success of the investment strategies and financial performance of CVC is dependent on internal processes, people and systems as well as external events. CVC has adopted policies and procedures to control exposure to various risks, there are inherent limitations in any risk management control system that may result in CVC not being able to successfully implement its investment strategies, affecting the financial performance of the company.

4.3.8 Key Management And Investment Personnel

Key management and investment personnel are responsible for sourcing opportunities recommending and managing the investments of CVC. As a result, the performance and profitability of CVC is in part dependent on the expertise and investment recommendations of key staff members and its directors. There is a risk that the financial performance of the company could be impacted if key staff members or directors resign or retire their employment at CVC.

4.3.9 Market Risk

The market prices of the investments in which the CVC Group invests can fluctuate as a result of market conditions caused by factors such as economic conditions, interest rates, regulations, sentiment and geopolitical events as well as environmental, social and technological factors. The value of the CVC Group's investments change in value over short or extended periods of time. Markets tend to move in cycles with different asset classes underperforming at different times over extended periods of time.

The investment portfolio may be adjusted in view of prevailing and forecast market conditions, and there is no limitation on the length of time an investment may be held, directly or indirectly, by the CVC Group prior to being sold. Investment turnover will vary from year to year, which generates varying transactions costs and profit recognition.

Interest rate movements may also adversely affect the value of investments of the CVC Group through their effect on the price of investments and the cost of borrowing. The CVC Group generally provides fixed interest loans to borrowers and as interest rates increase the margin earned on loans provided decreases.

Investments may be made on limited due diligence conducted only with the records made available. This has potential to increase the risks associated with an individual investment, including future recovery.

Section 4: Risk Factors continued

4.3.10 Leverage Risk

CVC undertakes investments which can be considered to be specialised in nature based on the structure and the type of investments. The specialisation includes high levels of debt finance, including being subordinated to third party lenders for various investments as well as providing equity funding that may be considered risky in nature.

Leverage can also be utilised by the group, including direct borrowings and derivatives such as options, to increase the scale of the portfolio and increase returns, which can magnify the gains and losses achieved in the portfolio.

4.3.11 Liquidity Risk

CVC's portfolio includes investments in assets that are typically subject to low levels of liquidity. This includes investments in various asset classes of listed, unlisted and property assets. If a security cannot be bought and sold quickly enough (or at all) or at an earlier time than intended then CVC may suffer significant losses.

4.3.12 Concentration Risk

CVC's investment strategy includes taking significant positions and undertaking active management roles in businesses and property projects. CVC continues to grow and diversify its portfolio across various asset classes including listed, unlisted and property. This includes undertaking equity investments, provision of senior and subordinated loans, acquisition of direct property holdings and other transactions in its investment activities. CVC's portfolio may consist of a small number of investments that may subject the company to investment concentration risk. The lower the number of investments the higher the concentration and, in turn, the higher the potential volatility. The strategy of CVC is to actively manage investments to seek to reduce the risk of a decrease in value of an individual investment that could have an impact on the portfolio as a whole.

4.3.13 Manager Risk

The property portfolio of the CVC Group is managed by Eildon Funds Management Limited (EFM), of which CVC holds a 40% shareholding. EFM is paid a compensation fee structure for managing property assets based on a fixed fee as a percentage of assets under management plus a performance fee based on the performance of certain assets. Performance fee arrangements may create an incentive for EFM to make more speculative or higher risk investments than would be the case in the absence of a fee based on the performance of the investments.

4.3.14 Counterparty Risk

Borrowers of the CVC Group's funds may experience financial difficulty repaying loans and breach lending covenants. The need to enforce security and undertake recovery action by selling assets at an earlier time to enable repayment of loan facilities may occur at a price lower than the optimal sale price. Deterioration in economic conditions, inadequate provisioning or a significant breakdown in credit disciplines could diminish available capital and could adversely affect CVC's financial performance, liquidity, capital resources, financial condition and investment prospects.

4.3.15 Risk Associated With Short Selling

CVC engages in short selling of securities, where securities are borrowed which are then sold with the objective of buying back at a price for less than the original sale price. Short selling exposes CVC to losses if the price of the securities rise rather than fall and the securities have to be liquidated at a loss and not at a time of CVC's choosing.

4.3.16 Geographical Risk

Investments made by CVC Group in foreign countries may be exposed to a higher degree of sovereign, political, economic, market and corporate governance risks than domestic investments.

4.3.17 Currency Risk

CVC's investments denominated in foreign currency creates an exposure to fluctuations which can change the value of the portfolio's investments measured in Australian Dollars.

4.3.18 Reputational Risk

There is a risk that CVC's reputation could be impaired by factors including poor performance, potential conflicts of interest, pricing policies, failing to comply with legal and regulatory requirements, ethical issues, litigation, privacy, improper conduct of companies in which CVC invests, security breaches, inappropriate executive remuneration, risk management failures, contagion from reputational concerns of other asset managers, improper conduct, carelessness and deliberate acts or otherwise, of current or former directors, officers, employees, contractors or shareholders. The ability to undertake new investments and secure future funding may be adversely impacted resulting in financial penalties, restriction on freedom to operate, be subject to legal and regulatory action, and CVC's future prospects could be adversely affected by reputational damage. CVC is aware of ongoing court matters in relation to shareholders and former directors that may have an adverse reputational impact.

4.3.19 Regulatory Risk

CVC is subject to extensive laws and regulations, with the relevant regulatory authorities including APRA, ASIC ACCC, AUSTRAC, ATO and ASX. If CVC fails to comply with applicable laws and regulations, including ceasing to hold an Australian Financial Services (AFS) Licence, it may be subject to fines, penalties and/or, restrictions on its ability to do business.

4.3.20 Accounting Standards

The existing accounting standards require the recognition of profits and losses from the revaluation of certain listed and unlisted investments in the Statement of Financial Performance before the investments have been realised. Conversely increases in the value of development properties that are classified as inventories are not adjusted in the financial report until the properties are realised. The impact of these standards is an increase in the volatility of reported earnings across accounting periods. Further, changes to the existing accounting standards may affect the reported earnings and financial position of CVC in future financial periods.

4.3.21 Litigation Risk

Due to the nature of CVC's business, there is a risk it may be involved in litigation, arbitration or regulatory proceedings. Such matters are subject to many uncertainties, and the outcome of individual matters cannot be predicted with certainty. If CVC is ordered to pay money (for example, damages, fines, penalties or legal costs), has an order made against its assets, is ordered to carry out actions which adversely affect its business operations or reputation or is otherwise subject to adverse outcomes of litigation, arbitration and regulatory proceedings, CVC's profitability may be adversely affected. CVC's reputation may also be damaged.

4.3.22 Fraud Risk

CVC could be adversely affected if an employee, contractor or external service provider does not act in accordance with regulations or CVC's policies and procedures, engages in inappropriate or fraudulent conduct, or unintentionally fails to meet a professional standard. As a result, CVC could incur losses, financial penalties and reputational damage, and could be subject to legal or regulatory action.

4.3.23 Non-Recourse Debt

In the ordinary course of business, CVC may incur non-recourse debt. Should an instance occur where the asset subject to the debt does not cover the financial obligation, the Board of CVC and Management may decide to repay any deficiency in order to avoid any reputation, financial or other risk to the financial, operating or business performance of CVC and its subsidiaries. The repayment of this debt could negatively impact CVC's financial position.

Section 5: Australian Tax Implications

This Section contains a general description of the Australian tax consequences of acquiring, holding and disposing of the CVC Notes.

The description applies only to Holders who are individuals who are not otherwise associates of CVC and who acquire, hold and dispose of the CVC Notes as a capital investment. It does not apply to Holders which are companies, trusts or other types of entities and it does not apply to Holders who acquire, hold or dispose of the CVC Notes as part of the conduct of a business, or who otherwise hold the CVC Notes on revenue account or as trading stock nor to Holders who are subject to the taxation of financial arrangements rules contained in Division 230 of the Tax Act in relation to gains and losses on their CVC Notes.

The actual taxation consequences of acquiring, holding and disposing of the CVC Notes will vary depending upon the particular circumstances of each Holder. Therefore, prospective Holders should obtain independent professional advice relating to their own specific circumstances and they should not rely on the summary below.

This summary assumes that all relevant transactions are carried out in the manner described in this Prospectus and is based upon the law and the commonly understood administrative practices of the Australian Taxation Office as in effect at the date of this Prospectus. Prospective investors should note that taxation law and its interpretation is subject to change and is open to challenge. Prospective investors should treat the following comments as a guide only. No ruling has been sought from the Australian Taxation Office to confirm the views below.

5.1 CVC Notes as Debt Interests

CVC should be taken to have an 'effectively non-contingent obligation' to repay the Principal Amount, plus any accrued but unpaid interest, on the CVC Notes on the Maturity Date, because CVC's obligation to pay these amounts is not subject to any contingency and cannot be deferred or waived in any circumstance. On this basis, the CVC Notes should be 'debt interests' issued by CVC, notwithstanding that the Holders will have the right to convert their CVC Notes into Ordinary Shares in CVC in accordance with the Terms of Issue because this right is effectively disregarded under the Tax Act. Therefore, interest payable on the CVC Notes should not be frankable distributions for tax purposes but assessable as interest under ordinary concepts, as discussed below.

5.2 Australian Resident Individuals

(a) Payments of Interest

Payments of interest in respect of the CVC Notes must be included in the assessable income of Holders who are residents of Australia for Australian income tax purposes, generally in the year of income in which the payments are received.

Holders are not required to quote their tax file number to CVC in connection with their acquisition of the CVC Notes, but CVC will be required to withhold and remit to the Australian Taxation Office a portion (currently 47%) of any interest payable on the CVC Notes to a Holder who has not validly quoted their tax file number in connection with their acquisition of the CVC Notes (or provided evidence of an applicable exemption from withholding). Where withholding is required, the Holder would be entitled to claim from the Australian Taxation Office a credit for the amount which CVC withheld from that Holder and remitted to the Australian Taxation Office.

No additional amounts are payable to a Holder if withholding is required because that Holder did not validly quote a tax file number or provide evidence of an applicable exemption.

(b) Sale or redemption of CVC Notes

The CVC Notes held by Australian resident individuals should be subject to the rules applicable to traditional securities because the CVC Notes would not be issued at a discount to their face value nor would they have any deferred income features such as indexation of invested capital.

Therefore, any gain made on the sale or redemption of the CVC Notes (where the amount received on sale or redemption exceeds the cost of subscribing for or purchasing the CVC Notes), would be included in the assessable income of the Australian resident Holder, usually in the year of income in which the Holder becomes entitled to receive the proceeds of sale or the redemption amount. In those circumstances, the gain would generally not be subject to the capital gains tax ('CGT') provisions and the CGT discount would not apply, even if the CVC Notes were held for more than 12 months.

Similarly, any loss made by an Australian resident individual Holder from the sale or redemption of the CVC Notes (where the amount received on sale or redemption is less than the cost of subscribing for or purchasing the CVC Notes), would be an allowable deduction, usually in the year of income in which the Holder becomes entitled to receive the proceeds of sale or the redemption amount, provided that the transaction was conducted on an arm's length basis. Again, the capital gains tax provisions would generally not apply in relation to the loss incurred in those circumstances. However, a deduction will not be available if:

1. The CVC Notes were not acquired in the ordinary course of trading on a securities market; and
2. At the time the Holder acquired the CVC Notes, it was not open to the Holder to acquire an identical security in the ordinary course of trading on a securities market; and
3. The disposal did not take place in the ordinary course of trading on a securities market; and
4. Having regard to the financial position of CVC, perceptions of the financial position of CVC and any other relevant matters, it would be concluded that the CVC Notes were disposed of for the reason (or for reasons that included the reason) that there was an apprehension or belief that CVC was or would be likely to be, unable or unwilling to discharge all liability to pay amounts under the CVC Notes.

Where a deduction is not available, the noteholder should be entitled to claim a capital loss.

(c) Conversion to Ordinary Shares

A Holder of a CVC Note may request Conversion of the CVC Note into Ordinary Shares. A Conversion will entail the redemption of the CVC Notes for the redemption amount and an application of that amount in subscribing for a prescribed number of Ordinary Shares in CVC. The Conversion would generally be ignored for the purposes of both the traditional securities rules described above and the CGT rules, such that there will be no taxing point (and no loss) at the time of Conversion under those rules (ie there would be rollover relief). Instead, the Ordinary Shares acquired pursuant to the conversion will be treated as having a cost base that is, in broad terms, equal to the cost base of the CVC Notes at the time of conversion, plus any amount paid on Conversion (where applicable).

Any gain or loss on the ultimate disposal of the Ordinary Shares will be subject to the CGT provisions and it will not be necessary, or possible, to treat the pre-conversion period as on revenue account.

A Holder will be taken to have acquired the Ordinary Shares acquired pursuant to a Conversion at the time of the Conversion. The acquisition date of the Ordinary Shares does not go back to the date of the acquisition of the CVC Notes because Ordinary Shares are different instruments to the CVC Notes. Therefore, the Ordinary Shares would need to be held for a further 12 months in order to be eligible for any available CGT discount. Holders should seek their own advice regarding their entitlement to the CGT discount upon an ultimate disposal of any Ordinary Shares acquired pursuant to a Conversion.

5.3 Non-Australian Residents

(a) Australian tax treatment of Interest

If a Holder of CVC Notes is not a resident of Australia for Australian tax purposes, interest payable to that Holder would generally not be subject to Australian income or interest withholding tax, provided that the non-resident Holder does not hold the CVC Notes in connection with the conduct of any business in Australia and also provided that CVC issues the CVC Notes in a manner which satisfies the public offer test and other requirements for exemption from non-resident interest withholding tax, which it is CVC's intention to do.

(b) Sale or redemption of CVC Notes

A non-resident Holder of CVC Notes would generally not be subject to Australian tax on a gain (or loss) from the sale or redemption of CVC Notes under the traditional securities provisions, provided that any gain made from that sale or redemption was not from sources in Australia. Although the application of the source rules depends heavily on the particular facts and circumstances of each case, and can be uncertain, gains from the sale or redemption of CVC Notes by a non-resident Holder should generally not be taken to be from Australian sources if the non-resident Holder acquired, held and disposed of the CVC Notes outside Australia. It is important to note that a non-resident Holder may however be subject to tax on the disposal of the CVC Notes in their own tax jurisdiction and accordingly they should seek their own taxation advice in relation to this issue.

Even if a gain from the sale or redemption of the CVC Notes by a non-resident Holder is treated as being derived from sources in Australia, that gain may be exempt from Australian tax under the provisions of an applicable Double Tax Treaty between Australia and the country of residence of the Holder. Non-resident Holders should seek their own taxation advice in relation to this issue.

Section 5: Australian Tax Implications continued

The CGT provisions would generally not apply to the sale or redemption of the CVC Notes except where:

1. A non-resident Holder holds their CVC Notes in connection with carrying on a business through a permanent establishment in Australia (although gains and losses may otherwise be caught under the traditional securities provisions in this circumstance);
2. A non-resident Holder holds their CVC Notes as part of an indirect interest in Taxable Australian Property (i.e. if CVC was land rich); or
3. A non-resident Holder was formerly a resident and they elected to keep their CVC Notes within the capital gains tax net.

Non-resident Holders should seek their own taxation advice in relation to this issue.

(c) Conversion to Ordinary Shares

As described above in relation to Australian resident Holders, the conversion of a CVC Note would generally be ignored for the purposes of both the traditional securities rules and the CGT rules, such that there will be no taxing point (or loss) at the time of conversion under those rules. Instead, the Ordinary Shares acquired pursuant to the conversion will be treated as having a cost base that is, in broad terms, equal to the cost base of the CVC Notes at the time of conversion plus any amount paid on conversion (where applicable), with a Holder being taken to have acquired the Ordinary Shares at the time of the conversion.

Any gain or loss by a non-resident Holder on the ultimate disposal of the Ordinary Shares should only be subject to the Australian CGT provisions if:

1. A non-resident Holder holds their Ordinary Shares in connection with carrying on a business through a permanent establishment in Australia;
2. A non-resident Holder holds their Ordinary Shares as part of an indirect interest in Taxable Australian Property (i.e. if CVC was land rich); or
3. A non-resident Holder was formerly a resident and they elected to keep their Ordinary Shares within the capital gains tax net.

Otherwise, the CGT rules should not apply to tax any gain by a non-resident Holder on the ultimate disposal of their CVC Ordinary Shares. Non-resident Holders should seek their own taxation advice as to whether their Ordinary Shares may be subject to the operation of the Australian CGT provisions.

(d) Non-Australian taxes

Holders who are not residents of Australia may be subject to other tax consequences in their own country of residence. Holders should seek tax advice in their own country or residence.

5.4 Other Taxes

Holders of CVC Notes will generally not be subject to any Australian Goods and Services Tax or stamp duties in any Australian State or Territory in respect of their acquisition, holding, sale, redemption or conversion of CVC Notes or the receipt of interest payable on CVC Notes.

Section 6: Additional Information

6.1 Reporting and Disclosure Obligations

This Prospectus is a transaction specific prospectus issued by CVC in accordance with the applicable provisions of the Corporations Act for a prospectus for continuously quoted securities. It has been prepared in accordance with section 713 of the Corporations Act and ASIC Corporations (Offers of Convertibles) Instrument 2016/83.

This Prospectus does not contain the same level of disclosure as an initial public offering prospectus or a prospectus prepared in accordance with section 710 of the Corporations Act.

CVC is a disclosing entity for the purposes of the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules. These obligations require that CVC prepare both yearly and half-yearly financial statements and a report on the operations of CVC during the relevant accounting period together with an audit or review report by its auditor. Copies of these documents and other documents lodged with ASIC by CVC may be obtained from, or inspected at, an ASIC office.

CVC also has an obligation under the ASX Listing Rules to notify ASX immediately of any information concerning CVC of which it becomes aware and which a reasonable person would expect to have a material effect on the price or value of CVC's securities unless exceptions from disclosure apply under ASX Listing Rules. ASX maintains records of company announcements for all companies listed on ASX. CVC's announcements may be viewed on ASX's website (www.asx.com.au).

Section 713 of the Corporations Act (as modified by ASIC Corporations (Offers of Convertibles) Instrument 2016/83) enables a company to issue a transaction specific prospectus where the securities offered are continuously quoted securities (within the meaning of that term in the Corporations Act) or securities convertible into continuously quoted securities. This generally means that the relevant securities are in a class of securities that were quoted enhanced disclosure securities at all times during the 3 months before the date of the prospectus and that, during the 12 months before the date of the prospectus, the issuing company was not exempted from the continuous disclosure regime and disclosing entity requirements provided for under the Corporations Act and the ASX Listing Rules.

The content requirements for a transaction specific prospectus under Section 713 of the Corporations Act require that the prospectus contain:

- information regarding the effect of the Offer on CVC;
- information regarding the rights and liabilities attaching to the CVC Notes and the Ordinary Shares (underlying securities that the CVC Notes may be converted into).
- statements detailing that, as a disclosing entity, CVC is subject to regular reporting and disclosure obligations, and that copies of documents lodged with ASIC in relation to CVC may be obtained from, or inspected at, an ASIC office; and

- a statement informing people of their right to obtain a copy of certain financial documents and continuous disclosure notices, and noting that copies will be provided free of charge if requested during the application period for the prospectus.

CVC believes, after having made reasonable enquiry, that it has complied in full with, and has not been exempted from, the general and specific requirements of ASX (as applicable throughout the 12 month period prior to the date of this Prospectus) which required the Company to notify ASX of information about specified events or matters as the arise for the purpose of the ASX making that information available to the stock market conducted by ASX.

To meet the specific disclosure requirements for a transaction specific prospectus set out in section 713(5) of the Corporations Act, the prospectus must also incorporate information if such information:

- has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
- is information that investors and their professional advisors would reasonably require for the purpose of making an informed assessment of:
 - the assets and liabilities, financial position and performance, profits and losses and prospects of the body; and
 - the rights and liabilities attaching to the securities being offered.

The prospectus must contain this information only to the extent to which it is reasonable for investors and their professional advisors to expect to find such information in the prospectus.

6.3 Rights Attaching to CVC Notes

The rights attaching to CVC Notes are contained in the CVC Notes Terms, which are contained in Section 8.

6.4 Rights Attaching to Ordinary Shares

Ordinary Shares may be issued to Holders by CVC on Conversion of CVC Notes. These Ordinary Shares will be issued as fully paid and will rank equally with all other Ordinary Shares already on issue in all respects, except that they will not be entitled to any dividend or any other distribution or entitlement that has not been paid as at the Conversion Date but for which the record date was prior to the Conversion Date. The rights attaching to Ordinary Shares are set out in CVC's Constitution, the ASX Listing Rules and the Corporations Act. A summary of these rights is set out below.

Transfers

Subject to the Constitution of CVC, the Corporations Act, the ASX Listing Rules and the ASX Settlement Operating Rules, Ordinary Shares will be freely transferable.

Unless otherwise required by law, CVC is not required to recognise any interest in Ordinary Shares apart from that of registered holders of Ordinary Shares.

Where two or more persons are registered as joint holders of any Ordinary Share, the joint shareholder named first in the register of shareholder in respect of that Ordinary Share is treated as being the sole owner of the Ordinary Share in relation to the receipt of dividends, service of notices and all other matters connected with CVC except the transfer of Ordinary Shares, the right to vote, delivery of certificates and liability for calls or instalments.

If a shareholder dies, the only person(s) who may be recognised by CVC as having any title to or interest in the shares held by the deceased are:

- where the deceased was a sole holder - the legal personal representative; and
- where the deceased was a joint holder - the surviving joint holder.

However, this does not in any way release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by the deceased with other persons.

Subject to the ASX Settlement Operating Rules and the Bankruptcy Act 1966, any person becoming entitled to a share in consequence of the death or bankruptcy of holder of the Ordinary Shares may, upon producing such evidence as the directors of CVC require, elect either to be registered as the holder of the Ordinary Share or to nominate another person to be registered as the holder of the Ordinary Share.

Profits and Dividends

Holders of Ordinary Shares are entitled to receive such Dividends as may be determined by CVC. Dividends determined by CVC are payable to holders of Ordinary Shares in proportion to the amounts paid on the Ordinary Shares that they hold.

Dividends must only be paid in accordance with applicable laws and CVC's Constitution. CVC is restricted under the Corporations Act from paying Dividends unless:

- CVC's assets exceed its liabilities immediately before the Dividend is determined and the excess is sufficient for the payment of the Dividend;
- the payment of the Dividend is fair and reasonable to CVC's shareholders as a whole; and
- the payment of the Dividend does not materially prejudice CVC's ability to pay its creditors.

CVC's Constitution provides that Dividends may only be paid out of the profits of the Company.

Winding up of CVC

Subject to the preferential entitlement (if any) of preference shareholders, holders of Ordinary Shares are entitled to share equally (in proportion to the share capital paid up on their Ordinary Shares) in any surplus assets if CVC is wound up.

Meetings and Voting Rights

Holders of Ordinary Shares are entitled to receive notice of, attend and vote at general meetings of CVC. Each holder of Ordinary Shares present at a general meeting (whether in person or by proxy or representative) is entitled to one vote on a show of hands or, on a poll, one vote for each fully paid Ordinary Share held and fraction of a vote equivalent to the paid up capital of a partly paid Ordinary Share.

Variation of Rights

The rights, privileges and restrictions attaching to the Ordinary Shares can only be varied by a special resolution passed at a meeting of Shareholders by those shareholders present at the meeting or by proxy who hold at least 75% of the votes attaching to Ordinary Shares or by written consent of members with at least 75% of the votes attaching to Ordinary Shares

Issue of further Ordinary Shares

Subject to Shareholder approvals required under the ASX Listing Rules, the CVC Directors control the issue of Ordinary Shares. Subject to the Corporations Act, the Constitution and ASX Listing Rules, the CVC Directors may issue further Ordinary Shares, and grant options and pre-emptive rights over Ordinary Shares, on such terms and conditions as the Directors determine.

11.7 Adjustments to Conversion Price for Bonus Issues

- (a) Subject to clause 11.7(b), if the Issuer makes a bonus issue of Shares to holders of Shares generally, the Conversion Price will be adjusted immediately under the following formula:

11.8 Adjustments to Conversion Price for Off Market Buy-Backs

- (a) Subject to paragraph 11.8(b), if the Issuer undertakes an off market buy-back under a buy-back scheme which but for any applicable restrictions on transfer would be generally available to holders of Shares (or otherwise cancels Shares for consideration), the Conversion Price will be adjusted immediately using the following formula:

Cpo means the Conversion Price applying immediately before the application of this formula;

where:

Section 8: Terms of Issue continued

11.10 Adjustment to Conversion Price for Issues Under a Share Purchase Plan or Dividend Reimbursement Plan at a Discount

If and whenever the Issuer shall issue any new Shares under a share purchase plan or dividend reinvestment plan where the pricing of new Shares under that plan is expressly calculated as a discount to a market price and that discount is greater than 10 per cent, the Conversion Price will be adjusted immediately using the following formula:

$$CP = Cpo \times \frac{RD + ((1-D) \times RN)}{(RD + RN)}$$

where:

Cpo means the Conversion Price applying immediately before the application of this formula;

RD means the number of Shares on issue immediately before the issue of new Shares under the share purchase plan or dividend reinvestment plan;

where:

CP means the Conversion Price applying immediately after the application of this formula;

Cpo means the Conversion Price applying immediately before the application of this formula;

P means the VWAP during the period from (and including) the first Business Day after the announcement to ASX of the return of capital up to and including the last Business Day of trading cum the return of capital (or if there is no period of cum return of capital, an amount reasonably determined by the Directors as representing the value of a Share cum the return of capital); and

C means with respect to a return of capital, extraordinary distribution, special dividend (being a dividend that is paid other than in accordance with the Issuer's dividend policy from time to time), or special distribution, the amount of the cash and/or the value (as reasonably determined by the Directors) of any other property distributed to holders of Shares per Share (or such lesser amount such that the difference between P and C is greater than zero).

11.12 Other Adjustments to Conversion Price

If the Issuer (after consultation with the Trustee) determines that an adjustment should be made to the Conversion Price where the effect of any of the adjustment provisions set out in clauses 11.7 to 11.11 is not appropriate in any particular circumstances, the Issuer shall, at its own expense and acting reasonably, request a Financial Adviser to determine as soon as practicable what adjustment (if any) to the Conversion Price is fair and reasonable to take account thereof and the date on which such adjustment should take effect and, on finalisation of that determination, such adjustment (if any) shall be made and shall take effect in accordance with such determination, provided that an adjustment shall only be made pursuant to this clause 11.12 if such Financial Adviser is so requested to make such a determination not more than 21 days after the date on which the relevant circumstance arises and if the adjustment would result in a reduction to the Conversion Price.

11.13 Deemed Amendment

Any adjustment of the Conversion Price under this clause 11 will be taken to be an amendment to these Terms and will be binding on the Issuer and all Holders and effective on delivery of the instrument of amendment to the Trustee and these Terms will be construed accordingly. Any such adjustment will be notified promptly to the Holders and to ASX (and any other stock exchange or other relevant authority on which the Notes are quoted).

11.14 On Market Buy-Backs

No adjustment to the Conversion Price shall occur as a result of an on market buy-back of Shares.

12.4 Effect of Holder Redemption Notice

- (a) Once given by a Holder, a Holder Redemption Notice cannot be withdrawn without the written consent of the Issuer.
- (b) An Holder Redemption Notice must be accompanied by evidence of title for the Notes the subject of the Notice as may reasonably be required by the Issuer and the Registrar.
- (c) A Holder must not deal with, transfer, dispose of or encumber any Notes the subject of a Holder Redemption Notice once that Notice has been given.

12.5 Purchase

Subject to compliance with any applicable law or requirement of ASX (and any stock exchange or other relevant authority on which the Notes are quoted):

- (a) The Issuer and any of its Related Bodies Corporate (or any third party nominated by the Issuer) may, at any time, purchase Notes in the open market or otherwise and at any price;
- (b) If purchases are made by tender for the Notes by the Issuer or any of its Related Bodies Corporate, tenders must be available to all Holders alike; and
- (c) Notes purchased under this clause 12.5 may be held, resold or cancelled at the discretion of the purchaser (and, if the Notes are to be cancelled, the Issuer).

13. Status and Ranking

13.1 Status

The Notes at all times constitute direct and unsecured obligations of the Issuer.

13.2 Ranking of Notes

- (a) The Notes are direct, unsecured and unsubordinated debt obligations of the Issuer and rank equally without any preference or priority among themselves and at least equally with all other present and future unsubordinated and unsecured debt obligations of the Issuer (subject to the laws and principles of equity affecting creditors' rights or obligations preferred by mandatory provisions of applicable law).
- (b) The ranking of Notes is not affected by the date of registration of any Holder in the Register.

14. Financial Covenants and Undertaking

14.1 Negative Pledge

For so long as any of the Notes remain outstanding, the Issuer must not without the approval of a Special Resolution:

- (a) **(new debt)**: incur any Financial Indebtedness for moneys borrowed or raised pursuant to any financial accommodation or agree to do so, except:
 - (i) Pursuant to the Existing Debt Obligations; or

- (ii) Any indebtedness incurred or guaranteed after the Issue Date for the purpose of replacing, refinancing or extending the maturity of the Existing Debt Obligations; or
- (iii) Permitted New Debt; or
- (b) **(security interest)** create or permit to subsist, and will ensure that none of its Subsidiaries will create or permit to subsist, Security Interest upon the whole or any part of its present or future property or assets (including any uncalled capital) to secure any Financial Indebtedness or to secure any Guarantee of or indemnity in respect of any Financial Indebtedness, other than a Permitted Security Interest, unless in any such case, before or at the same time as the creation of the Security Interest, any and all action necessary shall have been taken to ensure that:
 - (i) all amounts payable by the Issuer under the Notes and the Trust Deed are secured equally and rateably with the Financial Indebtedness or Guarantee or indemnity, as the case may be; or
 - (ii) such other Security Interest or Guarantee or indemnity or other arrangement (whether or not including the giving of a Security Interest) is provided in respect of all amounts payable by the Issuer under the Notes and the Trust Deed as the Trustee shall in its absolute discretion deem not materially less beneficial to the interests of the Noteholders.

15. Events of Default

15.1 Events of Default

An Event of Default occurs in relation to the Notes if:

- (a) **(non-payment)** the Issuer fails to pay any amount payable by it under the Terms within 10 Business Days after the date on which it is due and, where the sole reason for the default is a technical or administrative difficulty within the banking system being used to effect payment, such default is not remedied within five Business Days;
- (b) **(breach of other obligations)** the Issuer fails to comply with any of its other obligations under the Terms or the Trust Deed and such failure remains unremedied for a period of 20 Business Days after the Issuer has received written notice from the Trustee in respect of the failure;
- (c) **(insolvency)** an Insolvency Event occurs in respect of the Issuer;
- (d) **(cessation of business)** the Issuer ceases or suspends the conduct of all of its business;
- (e) **(unlawfulness)** at any time, it is unlawful for the Issuer to perform any of its payment obligations under the Notes.
- (f) **(non-issue of Shares)** the Issuer fails to issue Shares on Conversion in accordance with these Terms within 10 Business Days after the date on which such issue is to be made;
- (g) **(cross default)** any debt of the Issuer greater than \$1,000,000.00 (or its equivalent in any other currencies) becomes due and payable before its stated maturity due

to the occurrence of a default event under the terms of that debt;

- (h) **(vitiation)** all or any rights or obligations of the Issuer, Holders or the Trustee under the Trust Deed or the Terms are terminated or are or become void, illegal, invalid, unenforceable or of limited force and effect.

15.2 Notification

If an Event of Default occurs, the Issuer must, promptly after becoming aware of it, notify the Trustee of the occurrence of the Event of Default (specifying details of it) and use its reasonable endeavours to promptly notify the Holders and ASX (and any other stock exchange or other relevant authority on which the Notes are quoted) of the occurrence of the Event of Default.

15.3 Consequences of an Event of Default

- (a) If any Event of Default occurs and is continuing in relation to the Notes, the Trustee may declare by notice to the Issuer (with a copy to the Holders and the Registrar) that all the Notes are to be Redeemed at their Face Value (together with any accrued Interest) immediately (but not earlier than five Business Days after the date the Trustee gives notice under this clause) or on such other date specified in that notice.
- (b) The Trustee shall not be bound to take any of the actions referred to in paragraph (a) above to enforce the obligations of the Issuer in respect of the Notes or any other proceedings or action pursuant to or in connection with the Trust Deed, the Terms or the Notes unless:
- (i) it shall have been so directed by a Special Resolution of the Holders of the relevant Notes or so requested in writing by the Holders representing greater than 75% of the aggregate Face Value of all Notes outstanding;
 - (ii) it is indemnified, to its satisfaction, against all costs, charges, liabilities and expenses which may be incurred by it (including legal costs on a solicitor and own client basis) in connection with that action;
 - (iii) it is first placed in funds by the Issuer sufficient to cover the costs that it may incur as a result of doing so; and
 - (iv) it is not restricted or prohibited from taking such action by any order of any competent court or any applicable law.

If the Trustee forms the view that such action is or could be inconsistent with these Terms or the Corporations Act or any applicable law, it must take steps to seek (and, if the court so determines, to obtain) as soon as reasonably practicable a court direction or order to set aside or vary the direction given by Special Resolution, and, while those steps are underway, the Trustee is not obliged to take any action or proceedings it has been directed to take by Special Resolution.

15.4 No Enforcement by Holders

Unless the Trustee, having become obliged to take action to enforce the rights of the Holders under the Trust Deed and these Terms, fails to do so within 20 Business Days of being obliged to do so and such failure is continuing, the rights of each Holder to enforce the obligations of the Issuer under Notes are limited to the exercise of its rights to enforce and seek due administration by the Trustee of the Trust Deed. In particular, unless the Trustee, having become obliged to take action to enforce the rights of the Holders under the Trust Deed and these Terms, fails to do so within 20 Business Days of being obliged to do so and such failure is continuing, no Holder may, with respect to payment of any amount due under the Notes held by it:

- (a) sue the Issuer;
- (b) obtain judgment against the Issuer; or
- (c) apply for or seek Winding Up of the Issuer.

16. Title and Transfer of Notes

16.1 Title

Title to a Note passes when details of the transfer are entered in the Register.

16.2 Effect of entries in Register

Each entry in the Register in respect of a Note constitutes:

- (a) an unconditional and irrevocable undertaking by the Issuer to the Holder to pay principal, interest and any other amount in accordance with these Terms; and
- (b) an entitlement to the other benefits given to Holders under these Terms and the Trust Deed in respect of the Note.

For the avoidance of doubt, an entry in the Register does not make the Holder a member of the Issuer or confer rights on a Holder to become a member of the Issuer or to attend or vote at meetings of members of the Issuer.

16.3 Register conclusive as to ownership

Entries in the Register in relation to a Note constitute conclusive evidence that the person so entered is the absolute owner of the Note subject to correction for fraud or manifest error.

16.4 Non-recognition of interests

Except as required by law, the Issuer, the Trustee and the Registrar must treat the person whose name is entered in the Register as the holder of a Note as the absolute owner of that Note. This clause 16.4 applies whether or not a Note is overdue and despite any notice of ownership, trust or interest in the Note.

Section 8: Terms of Issue continued

16.5 Joint holders

Where two or more persons are entered in the Register as the joint holders of a Note then they are taken to hold the Note as joint tenants with rights of survivorship, but the Registrar is not bound to register more than four persons as joint holders of any Note.

16.6 Transfers in Whole

The Notes may be transferred in whole but not in part.

16.7 Transfer

A Holder may, subject to this clause 16.7, transfer any Notes:

- (a) by a proper ASTC transfer according to the ASX Settlement Operating Rules;
- (b) by a proper transfer under any other computerised or electronic system recognised by the Corporations Act;
- (c) under any other method of transfer which operates in relation to the trading of securities on any securities exchange outside Australia on which the Notes are quoted; or
- (d) by any proper or sufficient instrument of transfer of marketable securities under applicable law.

The Issuer must not charge any fee on the transfer of a Note.

16.8 Market Obligations

The Issuer must comply with all Applicable Regulations and any other relevant obligations imposed on it in relation to the transfer of a Note.

16.9 Issuer May Request Holding Lock or Refuse to Register Transfer

If the Notes are quoted on ASX, and if permitted to do so by the ASX Listing Rules and the Corporations Act, the Issuer may:

- (a) request the CS Facility Operator or the Registrar, as the case may be, to apply a holding lock to prevent a transfer of Notes approved by and registered on the CS Facility's electronic sub-register or Notes registered on an issuer-sponsored sub-register, as the case may be; or
- (b) refuse to register a transfer of Notes.

16.10 Issuer Must Request Holding Lock or Refuse to Register Transfer

- (a) The Issuer must request the CS Facility Operator or the Registrar, as the case may be, to apply a holding lock to prevent a transfer of Notes approved by and registered on the CS Facility's electronic sub-register or Notes registered on an issuer-sponsored sub-register, as the case may be, if the Corporations Act, the ASX Listing Rules or the terms of a Restriction Agreement require the Issuer to do so.
- (b) The Issuer must refuse to register any transfer of Notes if the Corporations Act, the ASX Listing Rules or the terms of a Restriction Agreement require the Issuer to do so.

- (c) During a breach of the ASX Listing Rules relating to Restricted Securities, or a breach of a Restriction Agreement, the Holder of the Restricted Securities is not entitled to any Interest (or other distribution on), or voting rights in respect of, the Restricted Securities.

16.11 Notice of Holding Lock And Refusal to Register Transfer

If, in the exercise of its rights under clauses 16.9 and 16.10, the Issuer requests the application of a holding lock to prevent a transfer of Notes or refuses to register a transfer of Notes, it must, within five Business Days after the date the holding lock is requested or the refusal to register a transfer, give written notice of the request or refusal to the Holder, to the transferee and the broker lodging the transfer, if any. Failure to give such notice does not, however, invalidate the decision of the Issuer.

16.12 Delivery of Instrument

If an instrument is used to transfer the Notes according to clause 16.7, it must be delivered to the Registrar, together with such evidence (if any) as the Issuer and/or the Registrar reasonably requires to prove the title of the transferor to, or right of the transferor to transfer, the Notes.

16.13 Refusal to Register

- (a) The Issuer may only refuse to register a transfer of any Notes if such registration would contravene or is forbidden by Applicable Regulation or the Terms.
- (b) If the Issuer refuses to register a transfer, the Issuer must give the lodging party notice of the refusal and the reasons for it within five Business Days after the date on which the transfer was delivered to the Registrar.

16.14 Transferor to remain Holder Until Registration

A transferor of a Note remains the Holder in respect of that Note until the transfer is registered and the name of the transferee is entered in the Register.

16.15 Effect of Transfer

Upon registration and entry of the transferee in the Register the transferor ceases to be entitled to future benefits under the Trust Deed and the Terms in respect of the transferred Notes and the transferee becomes so entitled in accordance with clause 16.2.

16.16 Estates

A person becoming entitled to a Note as a consequence of the death or bankruptcy of a Holder or of a vesting order or a person administering the estate of a Holder may, upon producing such evidence as to that entitlement or status as the Registrar considers sufficient, transfer the Note or, if so entitled, become registered as the holder of the Note.

16.17 Transfer of Unidentified Notes

Where the transferor executes a transfer of less than all the Notes registered in its name, and the specific Notes to be transferred are not identified, the Registrar may register the transfer in respect of such of the Notes registered in the name of the transferor as the Registrar thinks fit, provided the aggregate of the Face Value of all the Notes registered as having been transferred equals the aggregate of the Face Value of all the Notes expressed to be transferred in the transfer.

17. Payments

17.1 Summary of payment provisions

Payments in respect of the Notes will be made in accordance with this clause 17.

17.2 Record Date

All payments under or in respect of a Note will be made only to those persons registered as the holder of that Note at the nominated time on the relevant Record Date.

17.3 Payments Subject to Law

All payments are subject to applicable law, but without prejudice to the provisions of clause 18.

17.4 Payments on Business Days

If a payment:

- (a) is due on a Note on a day which is not a Business Day then the due date for payment will be postponed to the first following day that is a Business Day; or
- (b) is to be made to an account on a Business Day on which banks are not open for general banking business in the place in which the account is located, then the due date for payment will be the first following day on which banks are open for general banking business in that place,

and, in either case, the Holder is not entitled to any additional payment in respect of that delay.

17.5 Payments to Accounts

Moneys payable by the Issuer to a Holder may be paid in any manner the Issuer decides, including by direct credit into a nominated account of the Holder at an Australian branch of a financial institution.

17. Payments by Cheque

- (a) The Issuer may decide that payments in respect of the Notes will be made by cheque sent by prepaid post on the payment date to the Holder (or to the first named joint holder of the Notes) at its address appearing in the Register.
- (b) Cheques sent to the nominated address of a Holder will be at the risk of the registered Holder and will be taken to have been received by the Holder on the payment date and, no further amount will be payable by the Issuer in respect of the Notes as a result of the Holder not receiving payment on the due date.

17.7 Unsuccessful Attempts to Pay

Subject to applicable law and the ASX Listing Rules, where the Issuer:

- (a) decides that an amount is to be paid to a Holder by a method of direct credit and the Holder has not nominated an account to which amounts are to be paid by that method;
- (b) attempts to pay an amount to a Holder by direct credit, electronic transfer of funds or any other means and the transfer is unsuccessful;
- (c) has made reasonable efforts to locate a Holder but is unable to do so; or
- (d) has issued a cheque which has not been presented within six months of its date and, as a consequence, the Issuer has cancelled such cheque,

then, in each case:

- (e) the amount will be taken to have been duly paid to the Holder and will not bear Interest; and
- (f) the amount will be held by the Issuer for the Holder in a non-interest bearing deposit with a bank selected by the Issuer until the Holder (or any legal personal representative of the Holder) nominates an account for payment or otherwise claims the amount or the amount is paid by the Issuer according to the legislation relating to unclaimed moneys.

17.8 Payment to Joint Holders

A payment to any one of the joint Holders of a Note will discharge the Issuer's liability in respect of the payment.

17.9 Fractions

For the purposes of making any payment to a Holder in respect of its aggregate holding of Notes, any fraction of a cent will be disregarded.

18. Deductions

18.1 No set-off, counterclaim or deductions

All payments in respect of the Notes must be made in full without set-off or counterclaim, and without any withholding or deduction for or in respect of Taxes, unless such withholding or deduction is required by law.

18.2 Withholding and Other Taxes

- (a) The Issuer may withhold or deduct from any amount payable to a Holder in respect of the Notes an amount in respect of any Tax which a qualified legal or taxation advisor advises that it is required by law to withhold or deduct from that payment.
- (b) The Issuer must pay the full amount required to be withheld or deducted to the relevant revenue authority within the time allowed for such payment (without incurring penalty under the applicable law) and must, if required by a Holder, deliver to that Holder a copy of the relevant receipt issued by the relevant revenue authority without unreasonable delay after it is received by the Issuer.

Section 8: Terms of Issue continued

- (c) If an amount is deducted or withheld under clause 18.2(a) from a payment to a Holder in respect of any Tax, the Issuer will have no obligation to pay any additional amount to the Holder such that the Holder, at the time the payment is due, receives the same amount it would have received if no deductions or withholdings had been required to be made.

19. Amendment of the Terms

19.1 Amendment without the approval of the Holders

At any time, and from time to time, but subject to clause 18.4 of the Trust Deed, the Terms (which, for the avoidance of doubt include this clause) may be modified, altered, cancelled, amended or added to (collectively **Modified**), without the consent of the Holders, if:

- (a) such modification, alteration, cancellation, amendment or addition (collectively Modification) is:
 - (i) of a formal or technical nature or made to cure any ambiguity or correct any manifest error;
 - (ii) necessary or expedient for the purpose of listing the Notes on ASX or to comply with the applicable ASX Listing Rules or the listing or quotation requirements of any other any securities exchange on which the Issuer may propose to seek a listing of the Notes;
 - (iii) necessary or expedient for the purpose of enabling the Notes to be offered for issue or for sale under the laws for the time being in force in any place;
 - (iv) necessary or expedient to comply with the provisions of any law or regulation or the requirements of any statutory authority; or
 - (v) necessary or advisable following the introduction of, or any amendment to, clarification of, or change (including any announced prospective change) in, any law or regulation of the Commonwealth of Australia or an announcement, action or decision or a proposal to introduce, amend, clarify or change any such law or regulation or any official administrative pronouncement or action or judicial decision interpreting or applying any such law or regulation which is likely to cause the Notes to cease to be treated as debt for tax or accounting purposes; and
- (b) in respect of a Modification sought by a party in reliance on:
 - (i) any one of clauses 19.1(a)(i) to 19.1(a)(iv) above - the Issuer and the Trustee have jointly obtained a legal opinion from legal advisers of recognised standing in New South Wales, which opinion is in a form satisfactory to the Issuer and the Trustee (each acting reasonably) and is addressed to or is otherwise able to be relied on by each of the Issuer and the Trustee, to the effect that such Modification (taken as a whole and in conjunction with all other Modifications) is:
 - (A) a Modification within the scope of any one or more of paragraphs 19.1(a)(i) to 19.1(a)(iv); and

- (B) not materially prejudicial to the interests of Holders of the Notes (taken as a whole); or
- (ii) clause 19.1(a)(v) above - the Issuer and the Trustee have jointly obtained an opinion from an accountancy or taxation adviser of recognised standing in New South Wales, which opinion is in a form satisfactory to the Issuer and the Trustee (each acting reasonably) and is addressed to or is otherwise able to be relied on by each of the Issuer and the Trustee, to the effect that such Modification (taken as a whole and in conjunction with all other Modifications) is

 - (B) not materially prejudicial to the interests of Holders of the Notes (taken as a whole).

19.2 Amendment with the approval of the Holders

- (a) At any time, and from time to time, but subject to clauses 19.2(b), 19.2(c) and 19.3 of the Terms and clause 18.4 of the Trust Deed, the Terms (which, for the avoidance of doubt includes this clause) may be Modified if such Modification is authorised by a Holders Resolution passed at a meeting (including a meeting held by way of postal ballot) of all Holders held pursuant to the Meeting Provisions.
- (b) If the Trustee reasonably considers the Modification will materially and adversely affect the rights of all Holders, then the Modification must be authorised by a Special Resolution passed at a meeting (including a meeting held by way of postal ballot) of all Holders held pursuant to the Meeting Provisions.
- (c) If a clause in the Terms provides for Holders of those Notes to give a direction to the Trustee by a Special Resolution, then that clause may only be Modified if such Modification is authorised by a Special Resolution passed at a meeting (including a meeting held by way of postal ballot) of all Holders held pursuant to the Meeting Provisions.

19.3 Amendment with the Approval of the Holders But Not The Trustee

If a Modification to the Terms (which, for the avoidance of doubt includes this clause) is proposed by the Issuer under clause 19.2 and the Trustee will not consent to the Modification, subject to compliance with clause 18.4 of the Trust Deed, the Terms may be Modified in the manner proposed by the Issuer if such Modification is authorised by a Special Resolution passed at a meeting (including a meeting held by way of postal ballot) of all Holders held pursuant to the Meeting Provisions.

Client Instructions

We will apply our Best Execution Policy set out in this document in relation to orders that we receive from you and execute on your behalf. However, you may provide us with different instructions in relation to an order, on an order by order basis (Specific Instructions) or on an ongoing basis (Standing Instructions - available to Wholesale Clients only) in relation to such matters as:

- speed of execution;
- obtaining execution certainty;
- choice of market (where available); and
- minimising market impact.

Specific Instructions

Where you provide us with a Specific Instruction in relation to an order, we will take reasonable steps to satisfy your instructions. To the extent that Specific Instructions do not deal with all aspects of execution, we will apply this Best Execution Policy in handling your order. Where you wish to provide us with Specific Instructions, we require that instruction to be clear and unambiguous as well as in writing (whether that be printed or in electronic form, such as an email). To the extent that your Specific Instructions do not satisfy these requirements, we will execute your order(s) by applying this policy and taking reasonable steps to achieve the best total consideration or best price, as applicable.

Standing Instructions

If you are a Wholesale Client you can provide us with a Standing Instruction regarding how we are to treat your orders, including instructions to opt-out of our Best Execution Policy. Such instructions must be provided to us in writing and will not take effect until they are confirmed back to you by an Evans and Partners representative. Retail Clients cannot provide us with Standing Instructions with respect to their orders (but may wish to provide with Specific Instructions per above). If you are a Wholesale Client and provide us with Standing Instructions regarding how we are to manage your order(s), we will periodically review those instructions to ensure that they remain valid and appropriate for you. Note that where you provide us with instructions that are inconsistent with us obtaining the best outcome for you, Evans and Partners must take reasonable steps to handle and execute the order(s) the subject of those instructions in a way that satisfies them and, as a result, may not achieve the best available outcome for you.

Execution Venues/ Order Books

Evans and Partners is able to execute orders of ASX listed securities on the following order books:

- ASX TradeMatch (ASX Central Limit Order Book);
- ASX CentrePoint;
- ASX Purematch; and
- Chi-X Australia.

How we handle your order

Evans and Partners utilises a smart order router which directs orders to an available order book in accordance with the current routing policy, or in accordance with your directions where you have provided us with Specific or Standing Instructions. Generally we place the most emphasis on achieving the best available price for you at the time of order placement (subject to any Specific or Standing Instructions you have previously given us). In some circumstances, (for example, where your order may be advantageously consolidated or matched with another order with the same attributes), we may seek to fill orders through other matching mechanisms, such as:

- Block Trades;
- Large Portfolio Trades;
- Trades with Price Improvement;
- Permitted Trades during the Post-Trading Hours Period;
- Permitted Trades during the Pre-Trading Hours Period; and
- Out of Hours Trades.

Evidence of Best Execution, Review and Updates

On receipt of a reasonable request, we will provide you with evidence that your order has been executed in accordance with our Best Execution Policy. On receipt of such a request we will advise you of the estimated time to provide the necessary information. Evans and Partners will periodically review and monitor its Best Execution procedures, practices and connections to other execution venues. Where appropriate, we will review and make changes to our Best Execution Policy, and related policies. Whenever a material change to this Policy occurs we will notify you by posting the updated Policy on our website at www.evansandpartners.com.au.

6. Who is Your Adviser?

Your Adviser is a representative of and acts on behalf of Evans and Partners.

Your Adviser has met the educational and continuous professional development requirements to be a Financial Adviser and will be listed on ASIC's public Financial Adviser Register.

7. When We Give Advice Will You Receive A Written Record?

When we give retail clients personal advice for the first time, a Statement of Advice may be issued to record the basis and rationale for our advice.

If we issue a Statement of Advice it should reflect our understanding of your personal circumstances, your investment goals and our views on specific investment products. The Statement of Advice will also include disclosure of potential conflicts of interest we may have in dispensing our advice.

Where you maintain your advisory relationship with Evans and Partners, a Statement of Advice is generally not provided for further advice situations provided that your personal circumstances and the basis for our advice are not significantly different from the relevant personal circumstances and basis for our advice prevailing at the time of our earlier advice. In this case, if we don't provide a Statement of Advice, you may still request a record of further advice, where we have not already given you one. To request a record of further advice, contact your Evans and Partners Adviser (see contact details above). You have 7 years to request a record of further advice.

In general we must provide you with the Statement of Advice the first time we provide you with personal advice about each type of financial product or when there has been a significant change in your personal financial circumstances.

If you want us to provide personal advice to you, it is imperative you provide us with all information regarding your financial situation, investment objectives and particular needs in response to our enquiries. Providing us this information will help us comply with our obligations to act in your best interests and to provide you with advice that is appropriate for you having regard to the scope of the personal advice you require.

Appendix A – Financial Services Guide continued

We also encourage you to notify Evans and Partners of any relevant new information or material changes in your circumstances so we can assess the appropriateness (or otherwise) of your prevailing investment strategy.

You have the right not to divulge information to your Evans and Partners Adviser, however, this may affect the ability of your Evans and Partners Adviser to give you appropriate advice. If you receive advice based on incomplete or inaccurate information regarding your personal circumstances, you should consider the suitability of the advice before acting on it.

8. Product Disclosure Statements (Pds)

If we give you advice in relation to investing in certain financial products such as managed funds, exchange traded options or superannuation products and you are a retail client, we must provide you with a PDS. The PDS contains information about the particular product including the features benefits, fees and risks associated with the product to enable you to make an informed decision regarding the investment. In some instances a prospectus may be issued rather than a PDS.

9. Transaction Instructions

Evans and Partners will arrange for the provision of the Pershing FSG and any other disclosures which contain further information about the services provided by Pershing to you and the terms and conditions on which those services are provided.

In arranging for Pershing to provide these services to you, Evans and Partners will act as your agent, not as the agent of Pershing (although it may act as agent of Pershing in some limited respects such as the execution on behalf of Pershing of any agreement between you and Pershing).

10. Fee Disclosure Statements and Renewal Notices

If we give you personal advice and you enter into an Ongoing Fee Arrangement with EaP and your Adviser with respect to services to be provided to you in circumstances where fees are payable to us on an ongoing basis for a period exceeding 12 months, if required by law we will give you:

11. Trust Accounts

Where we are required to hold funds for you in our trust account we will retain any interest paid.

12. How We Handle Complaints

We encourage you to refer any complaints (including concerns about our complaints handling or any other matters that cause you dissatisfaction) to your Adviser in the first instance by any means that you usually use to contact your Adviser. Your Adviser will acknowledge your complaint promptly on receipt and seek to respond within 5 business days. If:

16. Remuneration and Other Benefits

16.1 General

Our fees are set out in this part of the FSG. The fees quoted include GST (unless otherwise stated). We reserve the right to change these fees at any point in the future.

We recommend that you seek advice from a professional tax agent who can provide advice in relation to the tax deductibility of any fees that we charge.

If we provide you with a Statement of Advice in relation to personal advice, and our remuneration (including commission) and other benefits:

- (a) are calculable at the time the personal advice is given, the remuneration (including commission) and other benefits we receive on specific financial products to which the personal advice relates; or
- (b) are not calculable at that time, the manner in which that remuneration (including commission) and other benefits are to be calculated,

will be disclosed at the time the personal advice is given or as soon as practicable after that time.

Our services are provided to you on the terms and conditions that apply in relation to the provision of the relevant services.

16.2 How We Are Paid For Our Services

Generally, our remuneration takes the form of:

- brokerage which we charge investors when we buy or sell securities or other financial products for them;
- fees charged at a fixed rate for services provided;
- fees based on the value of an investor's funds under management; and/or
- initial and ongoing commission paid to us by product and service providers, for referring investors to them.

More detailed information about the services we provide and the fees we charge with respect to those services and how our Advisers are remunerated are set out below.

In relation to the information below, in the case of retail clients to whom Evans and Partners gives financial product advice, Evans and Partners will ensure that any such fees could not reasonably influence any financial product advice given or that they are only paid or received in circumstances where an exemption applies to the prohibition on the payment or receipt of conflicted remuneration. For example, exemptions apply in relation to certain brokerage and stamping fees and extend to amounts EaP passes on to your Adviser.

To the extent that we give you financial product advice and our fees are asset based fees they will not be charged on borrowed amounts used to acquire assets in relation to which the fee is calculated (unless it is not reasonably apparent to us that an amount has been borrowed).

16.3 How Our Advisers Are Paid

Our financial Advisers are paid a salary and a variable component based on revenue. The variable component is determined by the level of fees received by Evans and Partners. As a general rule, our financial Advisers can receive between 0% and 60% of the fees Evans and Partners receives.

- EaP will negotiate with you the applicable fees and rates at the time you elect to become a Full Service client.

These fees are automatically deducted from the cash account that relates to your account. These fees are received by EaP and your Adviser will receive between 0% and 60% of this fee.

Some portfolio services clients may also pay transaction costs if that forms part of the agreement with your Adviser. The applicable rates will be detailed in Schedule 6 of the Evans and Partners' Terms and Conditions.

However, we may incur additional costs through third parties who provide custody, execution, clearing and settlement services to us in respect of your transactions which we may pass on to you.
