Request for Trading Halt

Six Sigma Metals Limited (“**Six Sigma**” or “**the Company**”) requests that the securities of the Company be placed in a trading halt as follows:

1. The trading halt has been requested pending an announcement regarding an exploration update on the Zimbabwe assets and a variation to the terms of the Zimbabwe asset agreement.
2. The trading halt should be until the release of the announcement by the Company, expected to be no later than market pre-open Wednesday, 4 July 2018; and
3. The Company is not aware of any reason why the trading halt should not be granted.

About Six Sigma Metals:
Six Sigma Metals is exploring for nickel, copper, cobalt, tantalum and lithium within its ~1,500 square kilometre exploration portfolio in Botswana. These “new world” metals are becoming increasingly important as the world switches to cleaner sources of energy.

The company announced a maiden JORC Inferred Resource of 2.38Mt on 28 April 2015 from drilling within a small 185 square kilometre section of its exploration portfolio in which it had entered a joint venture with BCL. At the time cobalt was not included in the resource calculation.

Historical drilling outside of the joint venture ground has intercepted further nickel as well as significant intercepts of copper and cobalt.

A soil sampling program detected traces of lithium and tantalum which warrant further exploration.

Large tracts of the Company’s exploration portfolio remain unexplored.
