\$6.0M FUNDING AND EARN IN PACKAGE TO ADVANCE LITHIUM PROJECTS IN ARGENTINA

HIGHLIGHTS

- **\$2million plus additional \$4million, 24 month Convertible Security Funding Agreement (CSFA).**
- **A fixed conversion price of \$0.015 per share representing 100% premium to the company's 5 day VWAP.**
- **An optional Project Equity Earn-In to Latin's Lithium projects.**
- **Latin Resources can elect to pay back Convertible Note with cash at any time.**
- **Funds will be used to meet exploration, general corporate and working capital costs and to provide funding for Latin's lithium and cobalt projects in Argentina.**

Latin Resources Limited (ASX: LRS) ("Latin" or "the Company") is very pleased to announce that a \$6 million Convertible Security Funding Agreement (**CSFA**) with an optional equity earn-in to Latin's Argentinean lithium projects has been executed with Lind Asset Management XII, LLC, an entity managed by The Lind Partners New York ("**Lind**"). The CSFA will provide a source of capital to enable the Company to pursue its program of project development and exploration across its portfolio of lithium and cobalt projects in Argentina.

The key terms of the CSFA are set out below with further details provided in Appendix 1:

- Total funding of up to \$6 million, including an initial amount of \$2 million to be advanced to the Company, and a further investment of up to \$4 million, subject to certain conditions having been met;
- 24 month term with a Face Value of \$2.4 million for the initial investment, being 120% of the amount advanced (equivalent to an effective interest rate of 10%pa);
- The Company may elect to buy back the note at a discounted \$2.15m Face Value within 3 months and \$2.3 million within six months;
- Lind will be restricted from converting or selling shares for a period of 90 days (Restriction Period);
- After the 90 day Restriction Period, the Convertible Security may be converted into shares, in whole or in increments at 1.5 cents;
- Lind will have the option, with the permission of Latin, to waive the repayment of AU\$2,400,000 and, instead, take 5% direct equity ownership into the lithium projects in lieu of repayment of the Face Value;
- The Company may elect to buy-back any outstanding amounts at no premium; and
- Commencing 90 days after advancing funds, the Company must make monthly repayments of 1/20 of the original Face Value of the note. The Company may make these payments, at its option, in cash (at a 3% premium), or in shares (priced at 90% of the average of 5 daily VWAPS chosen by the Investor from the prior 20 Trading Days), or a combination of both (subject to share issue limits).

The initial investment will provide working capital to pursue exploration activities including the commencement of drilling at the Company's Catamarca lithium projects which have now been granted to the Company. The Company will be submitting drill permits for the Lomo Pelada and Ipizca 1 concessions in Catamarca (see ASX announcement dated 5 June 2018).

In addition, the Company will commence to define drill targets at its La Rioja cobalt project. Once these drill targets are defined, permits will be applied for with drilling to commence thereafter.

Managing Director Chris Gale commented, *"The CFSA facility provided by our funding partners, Lind, provides the Company necessary working capital as we expand operations in Argentina. This will also provide a source of funding for our new drilling campaign in Catamarca and La Rioja. Compared with an equity placement, the Convertible security funding provides a cost effective source of capital and may also reduce the potential dilution of existing shareholders."*

Phillip Valliere, Managing Director at The Lind Partners, stated *"Lind is extremely pleased to be investing in Latin Resources for a second time. They have an exciting portfolio of lithium and cobalt projects targeting the battery metals sector, which we hope will deliver growth and shareholder value for all LRS shareholders"*.
