2. Details of the Offers

2.1 Entitlement Offer

The Company is making a non-renounceable pro rata entitlement offer of one New Share for every two Shares held by Eligible Shareholders on the Record Date at an issue price of \$0.025 per New Share, together with one free-attaching New Option for every four New Shares issued, to raise approximately \$1.075 million (before costs) (**Entitlement Offer**).

Under this Prospectus, Eligible Shareholders, being Shareholders on the Record Date with a registered address in Australia, New Zealand, Hong Kong or China are eligible to participate in the Entitlement Offer.

At the date of this Prospectus, the Company has on issue 86,053,001 Shares and 68,113,000 Options. Assuming no Options are exercised before the Record Date, approximately 43,026,501 New Shares and 10,756,625 New Options may be issued under the Entitlement Offer.

All of the New Shares will rank equally with the Shares on issue at the date of this Prospectus. Refer to Section 6.1 for a summary of the rights attaching to New Shares. All of the New Options offered under this Prospectus will be granted on the terms and conditions detailed in Section 6.2. The Shares issued on exercise of the New Options will rank equally with the Company's existing Shares.

2.2 Reasons for the Entitlement Offer and funding allocation

The purpose of the Entitlement Offer is to raise approximately \$1,075,663 (before costs).

The Company intends to apply the funds raised from the Offers as follows:

Description	(A\$)
Business development, sales, marketing and operations	\$650,000
Working capital	\$287,366
Costs of the Offers	\$138,297
TOTAL	\$1,075,663

The above table is a statement of the Board's intentions as at the date of this Prospectus. However, Shareholders should note that, as with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including the outcome of operational and development activities, regulatory developments, market and general economic conditions and environmental factors. In light of this, the Board reserves the right to alter the way the funds are applied.

2.3 Minimum subscription

There is no minimum subscription for the Entitlement Offer. The Entitlement Offer is fully underwritten on the terms detailed in Section 7.7.

As detailed in Section 2.5, if there are remaining Shortfall Securities due to a default under or termination of the Underwriting Agreement, the Company reserves the right to proceed to allocate the New Securities under the Entitlement Offer and to issue the remaining Shortfall Securities within three months after the Closing Date at its absolute discretion.

2.4 Shortfall Offer

Any New Securities under the Entitlement Offer that are not applied for will form the Shortfall Securities. The offer to issue Shortfall Securities is a separate offer under this Prospectus (**Shortfall Offer**).

Under this Prospectus, the Company offers to issue the Shortfall Securities to investors at the same price of \$0.025 per New Share as that offered under the Entitlement Offer (together with one free

attaching New Option for every four New Shares subscribed for and issued). The Shortfall Shares will have the same rights as the New Shares as detailed in Section 6.1. The Shortfall Options will have the same rights as the New Options as detailed in Section 6.2.

Eligible Shareholders may apply for Shortfall Securities by completing the relevant section of their Entitlement and Acceptance Form (refer to Section 4.3 for further details). Other investors may also apply for Shortfall Securities by completing the Shortfall Application Form upon invitation from the Company.

Shortfall Securities may be allocated to any Eligible Shareholder or to other investors who applies for Shortfall Securities under the Shortfall Offer, at the absolute discretion of the Directors.

An Application for Shortfall Securities accompanied by payment of the Application Monies does not guarantee the allotment of any Shortfall Securities. The Shortfall Securities will be allocated within three months after the Closing Date.

In relation to the Shortfall Offer, the Company reserves the right to issue to an Applicant a lesser number of Shortfall Securities than the number applied for, reject an Application or not proceed with the issuing of the Shortfall Securities or part thereof. If the number of Shortfall Securities issued is less than the number applied for, surplus Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded.

2.5 Shortfall allocation policy

Unless otherwise agreed between the Company and the Underwriter, if there is a Shortfall, the Company will allocate Shortfall Securities according to the following priority:

- (a) Shortfall Securities may be allocated to any Eligible Shareholders who apply for Shortfall Securities under the Shortfall Offer, at the absolute discretion of the Directors.
- (b) If following the allocation in paragraph (a), there remains a Shortfall, those unallocated Shortfall Securities will then be allocated to other investor who apply under the Shortfall Offer.
- (c) If following the allocation in paragraphs (a) and (b), there remains a Shortfall, those unallocated Shortfall Securities will then be allocated to the Underwriter in accordance with the Underwriting Agreement.

If there are remaining Shortfall Securities due to a default under or termination of the Underwriting Agreement, the Company reserves the right to proceed to allocate New Securities under the Offers and to issue the remaining Shortfall Securities within three months after the Closing Date at its absolute discretion.

Shortfall Shares will not be offered or issued to any Applicant if, in the view of the Directors, to do so would increase that Applicant's voting power in the Company above 19.9% or otherwise result in a breach of the Listing Rules, the Corporations Act or any other applicable law.

2.6 Underwriting

The Entitlement Offer is fully underwritten by Gloucester & Portman Capital Pty Ltd pursuant to the Underwriting Agreement. Refer to Section 7.7 for details of the Underwriting Agreement.

2.7 Entitlements and acceptance

The Entitlement of Eligible Shareholders to participate in the Entitlement Offer is determined on the Record Date. Your Entitlement is shown on the Entitlement and Acceptance Form accompanying this Prospectus.

Acceptance of a completed Entitlement and Acceptance Form and Application Monies by the Company creates a legally binding contract between the Applicant and the Company for the number of New Securities accepted by the Company. The Entitlement and Acceptance Form does not need to be signed to be a binding acceptance of New Securities.

If an Entitlement and Acceptance Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

2.8 No rights trading

The rights to New Securities under the Entitlement Offer are non-renounceable. Accordingly, there will be no trading of rights on the ASX and you may not dispose of your rights to subscribe for New Securities under the Entitlement Offer to any other party. If you do not take up your Entitlement by the Closing Date, your Entitlement will lapse.

2.9 Opening and closing dates

The Company will accept Entitlement and Acceptance Forms in respect of the Entitlement Offer from Eligible Shareholders from the Opening Date until 5.00pm (WST) on the Closing Date or such other date as the Directors shall determine, subject to the Listing Rules.

Payment made by BPAY® must be received no later than 5.00pm (WST time) on the Closing Date. It is the responsibility of all Eligible Shareholders to ensure that their BPAY® payments are received by the Company on or before the Closing Date.

2.10 Risks of the Offers

As with any securities investment, there are risks associated with investing in the Company. However, having regard to the matters detailed in Section 5, Eligible Shareholders, other investors and the Underwriter should be aware that an investment in the New Securities should be considered highly speculative and there exists a risk that you may, in the future, lose some or all of the value of your investment.

Before deciding to invest in the Company, investors should read this Prospectus in its entirety, in particular the specific risks associated with an investment in the Company (detailed in Section 5), and should consider all factors in light of their personal circumstances and seek appropriate professional advice.

2.11 Application Forms and BPAY® payments

Acceptance of a completed Application Form, or alternatively, a BPAY® payment, by the Company creates a legally binding contract between the Applicant and the Company for the number of New Securities accepted by the Company. The Application Form does not need to be signed to be a binding acceptance of New Securities.

If the Application Form is not completed correctly it may still be treated as valid. The Directors' decision whether to treat a completed Application Form as valid and how to construe, amend or complete the Application Form is final.

2.12 Issue and Dispatch

It is the responsibility of Applicants to determine their allocation prior to trading in the New Securities. Applicants who sell the New Securities before they receive their holding statements will do so at their own risk.

The expected dates for issue of New Securities and dispatch of holding statements are expected to occur on the dates specified in the Indicative Timetable.

As detailed in Section 2.5, if there are remaining Shortfall Securities due to a default under or termination of the Underwriting Agreement, the Company reserves the right to proceed to allocate New Securities under the Entitlement Offer and to issue the remaining Shortfall Securities within three months after the Closing Date at its absolute discretion.

2.13 Application Monies held on trust

All Application Monies will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the New Securities are issued. All Application Monies will be returned (without interest) in accordance with the Corporations Act if the New Securities are not issued.

2.14 ASX quotation

Application will be made to ASX no later than seven days after the date of this Prospectus for Official Quotation of the New Shares and New Options. If ASX does not grant Official Quotation of the New Shares within three months after the date of this Prospectus (or such period as the ASX allows), no New Shares will be issued or allotted under the Entitlement Offer and the Company will return all Application Monies without interest in accordance with the Corporations Act.

If ASX grants Official Quotation of the New Shares but does not grant Official Quotation of the New Options within three months after the date of this Prospectus (or such period as the ASX allows), the New Options will be issued as unquoted Options in accordance with their terms.

ASX takes no responsibility for the contents of this Prospectus. The fact that ASX may grant Official Quotation is not to be taken in any way as an indication of the merits of the Company or the New Securities.

2.15 Withdrawal

The Directors may at any time decide to withdraw this Prospectus and the Offers, in which case, all Application Monies will be returned without interest in accordance with the Corporations Act.

2.16 CHESS

The Company participates in the Clearing House Electronic Subregister System, known as CHESS. ASX Settlement, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and Securities Clearing House Business Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of New Securities.

If you are broker sponsored, ASX Settlement will send you a CHESS statement.

The CHESS statement will set out the number of New Securities issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the New Securities.

If you are registered on the Issuer Sponsored subregister, your statement will be dispatched by the Share Registry and will contain the number of New Securities issued to you under this Prospectus and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

2.17 Ineligible Shareholders

The Entitlement Offer is not being extended to Shareholders with a registered address outside Australia, New Zealand, Hong Kong or China. The Company is of the view that it is unreasonable to make the Entitlement Offer to Shareholders outside Australia, New Zealand, Hong Kong or China, having regard to:

- (a) the number of those Shareholders;
- (b) the number and value of New Securities to be offered to those persons; and
- (c) the cost of complying with overseas legal requirements.

This Prospectus and the Entitlement and Acceptance Form do not, nor are they intended to, constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. The Company is not required to extend the Entitlement Offer under this Prospectus to Shareholders other than in Australia, New Zealand, Hong Kong and China. 5. Risks

The proposed future activities of the Company are subject to a number of risks and other factors which may impact the financial performance of the Company and the value of its securities. Some of these risks can be mitigated by the use of safeguards and appropriate controls. However, many of the risks are outside the control of the Company and cannot be mitigated.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which investors need to be aware of in evaluating the Company's business and the risks of investing in the Company. Potential investors should carefully consider the following factors in addition to the other information presented in this Prospectus.

5.1 Risks in Respect of the Company's Operations

(a) **Sunscreen Regulatory Requirements and Government legislation and policy changes**

Sunscreens are classified as "therapeutic goods" in Australia to ensure quality, safety and efficacy and have strict controls for independent SPF testing and use of GMP. Similar regulations framework exists in most countries such as USA (Food and Drug Administration – FDA). Soléo Organics has been approved for sale by key regulatory bodies such as the TGA (Australia and New Zealand), the FDA (USA), Health Canada (Canada). The Company also has approvals to sell into the European Union. Changes in relevant laws, regulations and government policies regarding the regulation of sunscreens or skincare products could adversely affect the Company's proposed operations, increase costs, or affect the financial performance or any future revenue of the Company.

(b) **Competition Risks**

The Company participates in a highly competitive skin care market against materially larger, globally focussed competitors with significantly more access to capital and resources. Should any of the Company's competitors participate more aggressively on price, product, innovation or other means then this could have a material adverse impact on the Company's financial performance and future prospects of the business.

Existing competitors may take steps to complete or hinder the Company's plans to market launch, commercialise and distribute its products and make take steps to cause downward price pressure on unit prices, thus potentially reducing margins and revenues available to the Company.

There is also no guarantee that existing competitors will not release further competitor products to the Company's existing product portfolio which may impact upon demand for the Company's products.

(c) **New market entrants providing organic and natural skin care products**

While the research and development of all organic and natural skin care products requires considerable time, expertise, skill and process, competition for the Company's products may come from global and local skin care companies entering both the Australian market and international markets identified by the Company that currently do not provide all natural and organic skin care products to their customers. This could reduce the addressable market available to the Company, or increase competition or cause margin reductions available to the Company.

(d) **Change in Regulations**

There is a risk that laws or regulations may be introduced or amended in Australia, or in foreign jurisdictions in which the Company's sells, or sources its ingredients or products.

Changes to the regulatory environment could have a material effect in a number of ways. For example, the financial and production effects resulting from changing requirements to:

- (i) product packaging or labelling requirements as a requirement of regulatory medicine content disclosures; or

- (ii) restrictions that prevent or restrict access to markets by amendments to regulations governing the export or importation of products.

While the Directors are not aware of any current issues, or any impending regulatory change in relevant markets, there is the potential for any such measures to materially reduce the Company's revenues or increase its costs.

(e) **Manufacturing Risks and Regulations**

The process of manufacturing the Company's products is complex, highly regulated and subject to numerous quality assessments controls and procedures. This process may be subject to several manufacturing risks, including the following:

- (i) deviations from normal manufacturing processes and controls could result in reduced production yields, product defects and other supply disruptions;
- (ii) the manufacturing facilities in which the Company's products are made could be adversely affected by equipment failures, labour shortages, natural disasters, power failures and numerous other factors;
- (iii) the Company and its contract manufacturers must comply with the TGA regulations and guidelines. The Company and its contract manufacturers may encounter difficulties in achieving quality control and quality assurances to the standard required or, changes to the regulations and guidelines may require the Company to seek an alternative manufacturer, increase in costs or reduce volumes. There may be a shortage of persons qualified to administer the regulations and guidelines or may require additional training or qualifications. The Company and its contract manufacturers are subject to inspections by the TGA and comparable agencies in other jurisdictions to confirm compliance with applicable regulatory requirements. Any failure to follow TGA or other regulatory requirements or any delay, interruption or other issues that arise in the manufacture, packaging, or storage of the Company's products as a result of a failure of the Company's facilities or the facilities or operations of third parties to comply with regulatory requirements or pass any regulatory authority inspection could significantly impair the Company's ability to develop and commercialise the Company's products. Significant non-compliance could also result in the imposition of sanctions, including fines, injunctions, civil penalties, failure of regulatory authorities to grant marketing approvals for the Company's products, delays, suspension or withdrawal of approvals, license revocation, seizures or recalls of products, operating restrictions and criminal prosecutions, any of which could damage the Company's reputation. If the Company is not able to maintain regulatory compliance, the Company may not be permitted to market its products or may be subject to product recalls, seizures, injunctions, or criminal prosecution; and
- (iv) any adverse developments affecting manufacturing operations for the Company's products may result in shipment delays, inventory shortages, product withdrawals or recalls, or other interruptions in the supply of the Company's products. The Company may also have to take inventory write-offs and incur other charges and expenses for products that fail to meet specifications, undertake costly remediation efforts or seek more costly manufacturing alternatives.

The Company currently only utilises two TGA approved manufacturer across the product range. Accordingly, there is a concentration of manufacturing with each provider, in relation to each product line. There are no minimum production commitments in place between the Company and its manufacturer, although the parties have worked together for many years. The manufacturer has advised that they currently have sufficient capacity to manufacture the Company's products in the near future.

There is also a requirement that manufacturers producing the Company's products must comply with TGA regulations. There is a risk that for some reason outside the Company's control that its manufacturer(s) could lose their regulatory approvals.

Should there be a disruption with this particular manufacturer or others, or the manufacturer elects not to continue manufacturing the Company's products, then this could have a material adverse impact on the Company's ability to meet consumer demand and may

impact the financial performance and future prospects of the business. There are also numerous other TGA approved manufacturing facilities in Australia and overseas.

(f) **Raw Ingredients Supply**

The availability of organic and natural materials to meet the growing production plans of the Company's products is a critical part of supply chain management. Should there be interruptions in the Company's ingredient supply chain or economic or environment events impacting the availability of these raw materials then this could have a material adverse impact on the Company's ability to meet consumer demand and impact the financial performance and future prospects of the business.

(g) **Distribution**

The Company relies on a network of distributors in Australia and internationally including New Zealand, Japan and Europe. The Company distributes its products both locally in Australia and internationally through distributors in these jurisdictions. Should the Company fail to secure suitable formal distribution contracts or fail to engage the suitable distributors, or should engaged contracts default or fail to deliver, the distribution of the Company's products could be limited or restricted which could have a material adverse impact on the Company's financial performance and future prospectus of the business.

(h) **Brand and Reputation**

The Company's Intellectual Property is a key asset of its business. The reputation and value associated with the Company's brand names and related Intellectual Property could be adversely affected by a number of factors, including failing to provide customers with the quality of product they expect, contamination or recall issues, disputes or litigation with third parties, employees, suppliers or customers, or adverse media coverage (including social media), or other circumstances including those beyond the direct control of the Company.

Significant erosion in the reputation of, or value associated with the Company's brands, could have an adverse effect on customer loyalty, relationships with key suppliers, employee retention rates, and overall demand for the Company's products.

(i) **Unable to adequately prevent disclosure of Intellectual Property**

The Company relies on trade secrets to protect its Intellectual Property, especially where the Company does not believe patent protection is appropriate or obtainable. However, trade secrets are difficult to protect. The Company relies in part on confidentiality agreements with its employees, consultants, outside scientific collaborators, sponsored researchers and other advisors to protect the Intellectual Property. These agreements may not effectively prevent disclosure of confidential information and the Intellectual Property and may not provide an adequate remedy in the event of unauthorized disclosure of confidential information or the Intellectual Property. In addition, others may independently discover the Intellectual Property. Costly and time-consuming litigation could be necessary to enforce and determine the scope of the Intellectual Property. Failure to obtain or maintain trade secret protection, or failure to adequately protect the Intellectual Property could enable competitors to develop generic products or use the Intellectual Property to develop other products that compete with the Company's products or cause additional, material adverse effects upon the Company's business, results of operations and financial condition.

(j) **Claims by third parties that the Company has infringed their proprietary rights**

Because patent applications are maintained in secrecy until the application is published, the Company may be unaware of third party patents that may be infringed by commercialisation of the Company's product. In addition, identification of third party patent rights that may be relevant to the Company's products and technology is difficult because patent searching is imperfect due to differences in terminology among patents, incomplete databases and the difficulty in assessing the meaning of patent claims. Any claims of patent infringement asserted by third parties would be time consuming and could likely:

- (i) result in costly litigation;

- (ii) divert the time and attention of the Company's technical personnel and management;
- (iii) cause development delays;
- (iv) prevent the Company from commercialising its products until the asserted patent expires or is held finally invalid or not infringed in a court of law;
- (v) require the Company to develop non-infringing products; or
- (vi) require the Company to enter into royalty or licensing agreements.

Although no third party has asserted a claim of patent infringement against the Company, others may hold proprietary rights that could prevent the Company's products from being marketed. Any patent-related legal action against the Company claiming damages and seeking to enjoin commercial activities relating to the Company's products could subject the Company to potential liability for damages and require the Company to obtain a license to continue to manufacture or market the Company's products. The Company cannot predict whether the Company would prevail in any such actions or that any license required under any of these patents would be made available on commercially acceptable terms, if at all. In addition, the Company cannot be sure that the Company could re-design its products to avoid infringement, if necessary. Accordingly, an adverse determination in a judicial or administrative proceeding, or the failure to obtain necessary licenses, could prevent the Company from developing and commercialising its products, which could harm its business, financial condition and operating results.

(k) **Loss of key personnel**

In the short term until a suitable team is put in place, the Company's success depends to a significant extent on its key personnel, in particular Mr Peter Malone and Mr Leo Fung. Peter and Leo have extensive experience in, and knowledge of, the Company's products and business. The loss of key management personnel, and in particular Peter and Leo, or any delay in their replacement could have a significant adverse effect on the management of the Company, its financial performance and future prospects.

(l) **Product Contamination and Recall**

As a producer of natural skin care products, the Company's is subject to a general risk that any product contamination or product recall issue (however caused) could have a material adverse effect on the Company's brand and thus its financial performance. The Company and its manufacturer employ a number of measures to minimise the risk in this area (such as requiring manufacturers to have current TGA and GMP accreditation and the Company having in place appropriate insurances).

(m) **Foreign Exchange**

The Company distributes its products both in Australian and overseas. As distribution grows and further expands into USA, Canada, Japan and others, it is anticipated that more business will be conducted in foreign currencies. Hence, foreign currency risk may become more relevant over time.

(n) **Insurance**

The Company insures its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be available or of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company. In addition, there is a risk that an insurer defaults in the payment of a legitimate claim by the Company.

(o) **Contractual Disputes**

As with any contract, there is a risk that the business could be disrupted in situations where there is a disagreement or dispute in relation to a term of the contract. Should such a disagreement or dispute occur, this may have an adverse impact on the Company's

operations and performance generally. It is not possible for the Company to predict or protect itself against all such risks.

(p) **Third Party Risk**

The operations of the Company require the involvement of a number of third parties, including suppliers, contractors and clients.

Financial failure, default or contractual non-compliance on the part of such third parties may have a material impact on the Company's operations and performance. It is not possible for the Company to predict or protect the Company against all such risks.

(q) **Retail Environment**

There may be an economic downturn in Australia or the overseas markets that may cause the retail environment to deteriorate as consumers reduce their retail spending on discretionary items. This may result in reduced turnover in the Company's products in Australia or overseas markets.

5.2 General Risks Relating to the Company

(a) **Future capital requirements**

The Company's capital requirements depend on numerous factors. The Company may require further financing in addition to amounts raised under the Offers. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If adequate funds are not available to satisfy either short or long-term capital requirements, the Company may be required to limit its operations significantly. There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(b) **Securities investment risk**

The prices at which the securities trade may fluctuate in response to a number of factors.

Furthermore, the stock market has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies. There can be no guarantee that these trading prices will not fluctuate. These factors may materially affect the market price of the New Securities regardless of the Company's operational performance.

The New Securities issued by the Company carry no guarantee in respect of profitability, dividends, return of capital, or the price at which they may trade on the ASX.

The value of the securities will be determined by the stock market and will be subject to a range of factors beyond the control of the Company, and the directors and officers of the Company. Such factors include, but are not limited to, the demand for and availability of the Shares or Options, movements in domestic interest rates, exchange rates, fluctuations in the Australian and international stock markets and general domestic and economic activity. Returns from an investment in the Shares and Options may also depend on general stock market conditions as well as the performance of the Company. There can be no guarantee that an active market in the Shares or Options will develop or that the market price of the Shares and Options will not decline below the issue price.

(c) **Dilution**

In certain circumstances, the Directors may issue equity securities without any vote or action by Shareholders. If the Company were to issue any equity securities the percentage ownership Shareholders may be reduced and diluted.

5.3 General investment risks

In addition to the above specific risks associated with the Company's proposed operations there are also general risks associated with an investment in the Shares. These include:

(a) **Government legislation and policy changes**

Changes in relevant laws, regulations and government policies may adversely affect the Company's product approvals, ingredient availability, proposed operations, increase costs, or affect the financial performance or any future revenue of the Company. Such changes are beyond the control of the Company.

(b) **Securities investments and share market conditions**

There are risks associated with any securities investment. The prices at which the securities trade may fluctuate in response to a number of factors. Furthermore, the stock market may experience extreme price and volume fluctuations that may be unrelated or disproportionate to the operating performance of such companies. These factors may materially adversely affect the market price of the securities of the Company regardless of the Company's operational performance. Neither the Company nor the Directors warrant the future performance of the Company, or any return of an investment in the Company.

The New Securities should be considered speculative due to the nature of the Company's business and the early stage of market development. There is no guarantee as to the payment of dividends, return of capital or the market value of the New Securities. The prices at which an investor may be able to trade the New Securities may be above or below the price paid by the investor for the New Securities.

Prospective investors must make their own assessment of the likely risks and determine whether an investment in the Company is appropriate to their own circumstances.

(c) **Economic risk**

The future performance and viability of the Company is also dependent on a number of factors which may affect the performance of all industries and not just the natural skin care industry including, but not limited to, the following:

- (i) future demand for natural and organic sunscreen and natural skin care products;
- (ii) general economic conditions;
- (iii) changes in Government policies, taxation and other laws;
- (iv) the strength of the equity and share markets in Australia and throughout the world and, in particular, investment sentiment towards the industrial sector;
- (v) movement in, or outlook on, exchange rates, interest rates and inflation rates;
- (vi) industrial disputes in Australia and overseas;
- (vii) changes in investor sentiment toward particular market sectors;
- (viii) financial failure or default by an entity with which the Company may become involved in a contractual relationship; and
- (ix) natural disasters, social upheaval or war.

(d) **Share market**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. The market price of the Shares and Options may be subject to fluctuation and may be affected by many factors including, but not limited to, the following:

- (i) general economic outlook;
- (ii) interest rates and inflation rates;
- (iii) currency fluctuations;
- (iv) commodity price fluctuations;

- (v) changes in investor sentiment toward particular market sectors;
- (vi) the demand for, and supply of, capital; and
- (vii) terrorism or other hostilities.

(e) **Legal Proceedings**

Legal proceedings may arise from time to time in the course of the business of the Company. Legal proceedings brought by third parties including but not limited to customers, partners, suppliers, business partners or employees could negatively impact the business in the case where the impact of such litigation is greater than or outside the scope of the Company's insurance. As at the date of this Prospectus, there are no material legal proceedings affecting the Company and the Directors are not aware of any legal proceedings pending or threatened against or affecting the Company.

(f) **Unforeseen expenses**

While the Company is not aware of any expenses that may need to be incurred that have not been taken into account, if such expenses were subsequently incurred, the expenditure proposals of the Company may be adversely affected.

(g) **Macro-economic risks**

Changes in the general economic outlook in Australia and globally may impact the performance of the Company and its projects. Such changes may include:

- (i) uncertainty in the Australian economy or increases in the rate of inflation resulting from domestic or international conditions (including movements in domestic interest rates and reduced economic activity);
- (ii) increases in expenses (including the cost of goods and services used by the Company);
- (iii) new or increased government taxes, duties or changes in taxation laws; and
- (iv) fluctuations in equity markets in Australia and internationally.

(h) **Broader general risks**

There are also a number of broader general risks which may impact the Company's performance. These include:

- (i) abnormal stoppages in normal business operations due to factors such as war, political or civil unrest, infrastructure failure or industrial disruption;
- (ii) higher than budgeted costs associated with the provision of service offerings; and
- (iii) material litigation – the Company is not currently involved in any material litigation and is not aware of any facts or circumstances that may give rise to any material litigation. However, given the scope of the Company's activities and the wide range of parties with which it is likely to deal, the Company may be exposed to potential litigation from third parties such as clients, regulators, employees and business associates.

(i) **Acquisitions**

As part of its business strategy, the Company may make acquisitions of, or significant investments in, companies, products, technologies and/or products that are complementary to the Company's business. Any such future transactions are accompanied by the risks commonly encountered in making acquisitions of companies, products and technologies, such as integrating cultures and systems of operation, relocation of operations, short term strain on working capital requirements, achieving the sales and margins anticipated and retaining key staff and customer and supplier relationships.

5.4 Investment speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above may, in the future, materially affect the financial performance of the Company and the value of its Securities.

The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Securities offered under this Prospectus. Therefore, the New Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Securities. Potential investors should consider that the investment in the Company is speculative and should consult their professional adviser before deciding whether to apply for New Securities pursuant to this Prospectus.

This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

(a) General Meetings

Each Shareholder is entitled to receive notice of and to attend general meetings of the Company and to receive all notices, financial reports and other documents required to be sent to Shareholders under the Constitution, Corporations Act or Listing Rules. The notice must state the general nature of business and any other matters required by the constitution, Corporations Act or Listing Rules.

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

(c) Dividend Rights

The Directors may from time to time declare a dividend to be paid to Shareholders entitled to the dividend. The dividend shall (subject to the rights of any preference shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividends) be payable on all Shares in accordance with the Corporations Act.

Dividends are payable out of the Company's profits and are declared by the Directors. The Directors may from time to time pay to the Shareholders such interim dividends as they may determine. The Directors may direct payment of the dividend to be made wholly or in part by the distribution of specific assets. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company such amounts as they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

(d) Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property

to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other Securities in respect of which there is any liability.

(e) **Transfer of Shares**

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act or Listing Rules.

The Company may decline to register any transfer where permitted to do so by the Listing Rules and must decline to register a transfer of Shares where required by the Listing Rules.

(f) **Variation of Rights**

If at any time the share capital of the Company is divided into different classes of shares, the rights attached to a class (unless otherwise provided by terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of 75% of the issued shares of that class, or if authorised by a special resolution at a separate meeting of the holders of the shares of that class.

6.3 Dividend policy

The Company does not intend to declare or pay any dividends in the immediately foreseeable future.

Any future determination as to the payment of dividends by the Company will be at the sole discretion of the Directors and will depend on the availability of distributable earnings and operating results and financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

7. Additional information

7.1 Continuous disclosure obligations

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act, and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Shares, and Shares issued upon exercise of the New Options are in the same class as Shares that have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus.

This Prospectus is a 'transaction specific prospectus' to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or operation to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms 'transaction specific prospectuses' are only required to contain information in relation to the effect of the issue of the New Securities on the Company and the rights attaching to the New Securities. It is not necessary to include general information in relation to all of the assets and liabilities, the financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the closing date of the Entitlement Offer:
 - (i) the annual financial report of the Company for the financial year ended 30 June 2017 being the most recent annual financial report of the Company lodged with the ASIC before the issue of this Prospectus; and
 - (ii) the half year financial report of the Company for the six months ended 31 December 2017 lodged with ASIC after the lodgement of the annual financial report mentioned in paragraph (i) and before the issue of this Prospectus; and
 - (iii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the annual financial report referred to in paragraph (i) above until the issue of this Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

- (a) the formation or promotion of the Company;

- (b) property acquired or proposed to be acquired by the Company in connection with its formation or promotion of the Offers; or

7.3 Control implications

At the date of this Prospectus, GPC has a relevant interest in 93,787 Shares (constituting a voting power of 0.11%) and is not a related party of the Company for the purposes of the Corporations Act.

The Entitlement Offer is fully underwritten by the GPC pursuant to the Underwriting Agreement. Assuming no Shareholders take up their Entitlements (which is unlikely), the theoretical maximum number of Shares that may be held by GPC following completion of the Offers is 43,120,288 (representing a voting power of 33.41%).

Under the terms of the Underwriting Agreement, GPC has the ability to appoint sub-underwriters to the Entitlement Offer. GPC has warranted to the Company that neither GPC nor any sub-underwriter appointed by GPC, will acquire a voting power in the Company of more than 19.9%. Accordingly, if the level of acceptances under the Entitlement Offer is such that GPC is required to subscribe for a number of Shortfall Shares, which, if subscribed for, would give it a voting power in excess of 19.9%, GPC will be required to allocate a number of Shortfall Shares to sub-underwriter(s) to ensure that this threshold is not exceeded.

The following table show the number of Shares held by, and approximate voting power of, the GPC after completion of the Offers, assuming different levels of acceptances by Eligible Shareholders and that no Eligible Shareholders or other investors apply for additional shares under the Shortfall Offer.

	75% acceptance of Entitlements		50% acceptance of Entitlements		0% acceptance of Entitlements
