*(Figures in the table above may not add due to rounding)*

There are currently no plans to update the Company's mineral resources in the near future. During the quarter the Company continued to operate on minimum operational expenditure, at a level intended to maintain the tenements in good standing, as a consequence of the continuing weakness in the uranium spot price.

The information in the table above in relation to the Mount Isa area mineral resources was prepared and first disclosed under the JORC Code 2004. It has not been updated since to comply with JORC Code 2012 on the basis that the information that the estimates are derived from has not materially changed since it was last reported.

The Company's base metal projects are currently being explored by Aeon Metals Limited (**Aeon**) and its subsidiary Aeon Walford Creek Limited (**Aeon Walford**) under joint venture and mineral rights agreements.
